THE REPUBLICANS LEAD

In the Contests Carried on in Twelve States Tuesday.

NASH VICTORIOUS IN OHIO.

In Kentucky Republicans Again Carry the State.

MARYLAND GOES DEMOCRATIC.

The Followers of Bryan Carry the Day in Nebraska.

In Pennsylvania the Full Republican Ticket Is Elected, Although State Treasurer-Elect Barnett Has a Reduced Plurality. Republicans Lead in New York, but Tammany Carries the Great City—Republican Gains in New Jersey—Crane Elected Governor of Massachusetts.

Columbus, O., Nov. 8.—At midnight the chairmen of the Republican and Democratic state committees were claiming the election of their respective state tickets, and also a majority of the legislature. There are no Jones legislative candidates, but Samuel M. Jones, mayor of Toledo, is certainly the closest third that ever entered the Ohio gubernatorial race. The indications are that he has drawn more heavily from the Republicans in the cities than from the Democrats, with the exception of Columbus and smaller cities, and that the Jones vote will not be so large in the rural districts. There is not the usual percentage of either Republican or Democratic gains or losses, as the gains run for the Republicans in some places and for the Democrats in other sections. Even after the returns are complete from Cincinnati, Cleveland and Toledo it may be difficult to reach the result positively, owing to the tide in the Jones vote, which runs in streaks and causes Republican losses in some places and Democratic losses in other places. Judge Nash claims his election as governor, and Republican Chairman Dick said he was assured the Republicans had carried everything, but he had no figure yet to announce. A press representative sent to Mr. McLean, at his residence, asking if he claimed his election, and received the reply that he had no answer yet to make. Chairman Seward, of the Democratic committee, said he was not prepared yet to answer the question.

Later returns show that the Democratic gains in Cincinnati and other cities were reduced, and that McLean was likely third at Cleveland and possibly at Toledo, in which cities Jones drew much more heavily from the Democrats than from the Republicans. At the same time the Republican net gains outside of Cincinnati, Cleveland and Toledo were increasing at such a rate as to indicate a plurality of 30,000 to 40,000 for Judge Nash for governor and the entire Republican state ticket, including a majority of the legislature.

THE VOTE OF KENTUCKY.

Republicans Claim the State by Ten Thousand Plurality.

Louisville, Nov. 8.—At midnight Chairman Long, of the Republican campaign committee, claimed that General Taylor had carried the state by from 10,000 to 15,000 plurality. He says that Taylor has carried the Third, Fourth, Fifth, Ninth and Eleventh congressional districts, while the Eighth and Tenth are close. The Republicans have made heavy gains in most all of the Democratic strongholds, which were expected to give Goebel large majorities. Chairman Long claims the Republicans have carried the city of Louisville by from 3,000 to 5,000 majority. Returns received up to midnight also indicate the election of the entire Republican ticket, while the complexion of the legislature is in doubt. The weather throughout the state was perfect and more than an average vote was polled, the total falling but little short of the vote in the last presidential election. Comparatively little disorder prevailed, and aside from several arrests for alleged violations of election laws, the election was characterized by a remarkable degree of quietude.

The Courier-Journal (Dem.) from its figures, says the result is in doubt, but the Post (Dem.), which has opposed Goebel, claims Taylor's election by 10,000.

Senator Blackburn and others at Goebel headquarters at midnight admitted the returns from many Democratic counties are disappointing, but claim this is partially offset by private dispatches from the Eleventh district, indicating a falling off in the Republican vote. Blackburn now claims Goebel will win by 5,000. This is a reduction of 25,000 as compared with claims made two hours earlier.

MARYLAND AGAIN DEMOCRATIC.

Smith Elected Governor and the Democrats Control the Legislature.

Baltimore, Nov. 8.—Incomplete returns from the city of Baltimore and meagre reports from the state indicate that the Republicans of Maryland have been overwhelmingly defeated, and that John Walter Smith, the Democratic candidate, has been elected governor by a majority variously estimated from 10,000 to 15,000. There is also a reasonable certainty that the lower house of the general assembly will be Democratic by a large majority, and that the Democrats will elect enough state senators to overcome the Republican advantage among the hold-over senators, thereby controlling both branches of the legislature.

The Democrats have carried the three legislative districts in Baltimore city, and the probabilities are that they will have 75 members in the lower house of the general assembly, while the Republicans appear to have elected but 16. The senate will be very close, with the chances slightly favoring the Democratic claim of a majority of two.

On the face of the returns the Republicans have carried but five counties in the state, viz.: Allegheny, Charles, Garrett, Anne Arundel and Somerset. Five others are doubtful. These are Carroll, Dorchester, Prince Georges, St. Mary's and Calvert. The Democrats have carried beyond a reasonable doubt the remaining 13, including Frederick and Washington, by majorities ranging from 1,200 in Baltimore county and 1,000 in Worcester, down to a very close margin in some of the others.

The Democrats are wild with enthusiasm, while the Republicans are correspondingly depressed over the result, which they are inclined to attribute to treachery among the followers of Mayor Malster and United States Senator George L. Wellington. The latter has taken no part in the campaign, and has not hesitated, since his resignation as chairman of the state central committee a few weeks ago, to predict the overwhelming defeat of the Republican ticket.

A special from Cumberland to the Baltimore Sun quotes Senator Wellington as saying that this was one of the happiest days of his life. The senator added:

"The defeat of the Republican party in this contest was not a surprise to me. At the time of my retirement from the chairmanship of the state central committee of the party there was no question in my mind as to the result. I counseled Governor Lowndes then that his only escape from defeat was his retirement from the ticket. I felt convinced that after his duplicity, weakness and treachery it would be impossible for him to be elected. He preferred the advice of the coterie of Republicans and assistant Republicans, Cowen and Warfield, at whose dictation he had betrayed me. I knew that he was foredoomed to defeat and though some of my friends thought it unwise for me to put myself on record in a declaration that he would be beaten, I felt no hesitation, because of the conviction I had. This is not a defeat for the Republican party, it is a defeat for Lowndes and his personal allies."

The "Gold Democrats," as an organization, supported Governor Lowndes, but they seem to have but little, if any, effect on the result.

BARNETT WINS IN PENNSYLVANIA.

His Plurality Over Creasy Is Estimated at 138,483.

Philadelphia, Nov. 8.—Estimates from all the counties in the state indicate the pluralities for Barnett (Rep.) over Creasy (Dem.) over 120,000. In some counties the estimates were necessarily based on meager information, and complete returns may change the figures here given.

In nearly all of the counties Barnett, the Republican candidate for state treasurer, ran behind the rest of his ticket.

In 1897, when Swallow (Ind.) carried ten counties in the state, the plurality of Beacom (Rep.) was 129,717, and in 1895 the plurality for Haywood (Rep.) was 174,264.

Complete returns from the forty wards in this city give Barnett (Rep.), for state treasurer, a plurality over Creasy (Dem.) of 69,407, against a plurality of 74,548 for Haywood, the Republican candidate in 1895, and a plurality of 70,953 for Beacom (Rep.) in 1897. The total vote cast yesterday was 150,440, against 158,588 in 1895, and 145,047 in 1897. The city's $12,000,000 loan bill was favored by an overwhelming majority of the votes cast.

Republican State Chairman Reeder said this morning:

"Colonel Barnett's majority in the state will be 140,000. The majority in Allegheny will be about 20,000, and in the state, exclusive of Philadelphia and Allegheny, about 50,000. The other candidates will run somewhat ahead of Barnett, as the opposition within our own party has been concentrated on Colonel Barnett."

In an interview Senator Penrose said:

"It seems to be a staunch Republican victory all along the line, and a strong endorsement of the national administration. We are all gratified at the splendid endorsement of Colonel Barnett."

LIEUTENANT COLONEL JAMES E. BARNETT,
State Treasurer-Elect of Pennsylvania.

In Chester county the fusionists claim to have elected their ticket, but the figures so far received do not support the claim. It is possible that Cornwell, the fusion candidate for district attorney, was elected.

One congressman was elected in Pennsylvania yeterday. In the Ninth district, comprising Berks and Lehigh counties, Captain H. D. Green (Dem.) was chosen by a majority of 5,000 to succeed D. M. Ermentrout, deceased.

Judges were elected in eleven counties in Pennsylvania yesterday In six counties there was no opposition, the following being elected: Allegheny, Frederick H. Collier; Berks, Gustave A. Endlich; Chester, Joseph Hemphill; Dauphin, John H. Weiss; Luzerne, Gaines L. Halsey; Philadelphia, Samuel W. Pennypacker and Henry J. McCarty.

In Lancaster Judge Charles J. Landis (Rep.) was opposed by David McMullin (Dem.), but Judge Landis was re-elected by a large majority.

Republicans Win in Troy.

Troy, Nov. 8.—After one of the hottest fights ever known here, in which ex-Governor Black led on one side and ex-Senator Edward Murphy on the other, the city of Troy has gone Republican by about 1,000. Black and Murphy have personally conducted the contest, night and day, for weeks, and the result is the election of Black's entire ticket, city, county and assembly. This is the first time in 30 years that Troy has gone Republican.

Increased Majority in Iowa.

Des Moines, Nov. 8.—Weaver, chairman of the Republican state central committee, says: "I feel confident that the Republicans have won by an increased majority over two years ago Both branches of the legislature will be Republican by a large majority."

Republicans Carry South Dakota.

Sioux Falls, Nov. 8.—At midnight Chairman Bowler, of the Democratic state committee, conceded the election of Republican judges by 2,000, The Argus-Leader claims the state by not less than 10,000 for the Republicans.

NEW JERSEY REPUBLICAN.

County Returns Show a State Plurality of Twenty Thousand.

Trenton, Nov. 8.—Returns so far received indicate that the Republicans have carried the state by about 20,000 plurality, although there was no direct vote on a state ticket. The Republicans will control both houses of the legislature by good working majorities, and will have an increased representation in the house of assembly.

The Republicans have elected senators in Camden, Gloucester, Somerset, Union and Essex, and probably in Salem and Monmouth. The Democrats have elected but one senator, in Warren.

The senate will stand 14 Republicans to 7 Democrats. The Democrats lost three assemblymen in Middlesex and one in Salem, and the next assembly will be composed of 41 Republicans and 19 Democrats, as against 37 Republicans and 23 Democrats last year.

The result in Monmouth is very close, but it is believed that the Republicans have elected Francis senator, and that the Democrats have elected assemblymen and county officers.

The Republicans carried Cumberland for the assembly, but the Democrats elected the county clerk and sheriff. The Republicans carried their entire ticket in Middlesex and Union counties.

The Republicans made a clean sweep in Passaic county, electing four assemblymen and the two coroners. The assemblymen get about 2,800.

The Republicans carry Union county by about 2,200 for senator and assembly. William Howard (Rep.), for county clerk, ran behind his ticket by about 300, but is safe. Robert G. Houston (Rep.), for sheriff, is elected by about 2,000.

Sussex county went Democratic, electing Elvin E. Smith, the retiring member, to the assembly for another term. John M. Hotalen (Dem.) was elected sheriff.

The result of yesterday's election greatly improves the chances of United States Senator William J. Sewell to succeed himself in the senate. The senate will remain Republican for two years more, as next year the senators retiring are all Democrats except one, who is from a county almost certainly Republican, so the Democrats cannot make any gain, and in the senatorial elections next year they will have everything to lose and nothing to gain. Yesterday's elections for assemblymen are taken here to indicate that the Republicans cannot lose next year. The appointment of Republicans for state treasurer and other state officers this winter is assured.

Massachusetts' Republican Plurality.

Boston, Nov. 8.—The Republicans carried Massachusetts yesterday by 65,000 votes, electing W. Murray Crane governor. The entire Republican state ticket was elected by practically the same plurality as the head of the ticket, and the legislature of 1900 will also be Republican by the usual large majority, there being few changes in either branch. The total vote for governor, with one town missing, was as follows: W. Murray Crane, Republican, 168,846; Robert Treat Paine, Jr., Democrat, 103,812. The senate of 1900 will stand practically the same, 33 Republicans and 7 Democrats, while the house will have about 165 Republicans and 68 Democrats, with the balance divided among the Socialists and Prohibitionists. While the Socialists lost a representative in Haverhill, their candidate for governor led the Democratic nominee in that city, and in other parts of the state the Socialists' doctrine was given some endorsement.

Virginia Overwhelmingly Democratic

Richmond, Nov. 8.—Returns thus far received show that both branches of the legislature will be overwhelmingly Democratic. The vote was exceedingly light, the only contests being between Democrats and Independents, and the warmest of these fights was in the Isle of Wight senatorial district, where the Democrats lost. Another warm fight was in Shenandoah county for the house, the Independent candidate winning there also. Seven anti-Democrats are elected to the legislature.

Mayor Jones Gratified.

Toledo, Nov. 8.—Mayor Jones said today: "The result of the election is extremely gratifying to me, as it must be to every lover of liberty. The vote for the non-partisan idea is large enough to justify the claim that the cause has won the greatest victory ever recorded in the political history of the state. I believe the moral force will lead the legislature to pass the municipal code commission bill, which provides that every municipal officer in Ohio shall be elected by the non-partisan plan, doing away entirely with political parties in all our cities."

Republican Gains in Kansas.

Topeka, Nov. 8.—Very meagre returns indicate Republican gains in the county elections held over Kansas yesterday. It is predicted by conservative politicians that the Republican gain will reach 10 per cent. In Shawnee county the whole Republican ticket is elected by a gain of 20 per cent. over last year. A very light vote was polled all over the state. In 1896 the Fusionists carried 60 out of 105 counties. Last year the Republicans carried 81 counties out of the 105.

Democrats Win in Denver.

Denver, Nov. 8.—Returns so far received make the election of the entire Democratic ticket in this (Arapahoe) county practically certain. The Democratic managers claim a plurality over the Republicans of from 4,000 to 5,000. The proposition to issue bonds of the city of Denver for the construction of a municipal water plant carries by a majority of 2,000 in a vote of a little over 5,000.

Albany Republican.

Albany, Nov. 8.—It is given out at Democratic headquarters that the Republican ticket, headed by Blessing for mayor and containing the names of some Democrats, has been elected. This is a great Republican victory, the first won in many years.

Mississippi Democratic by 30,000.

Jaakson, Miss., Nov. 8.—The election passed off very quietly throughout the state. The Democratic majority is estimated at 30,000. Returns are very scattering so far, and indicate a close vote on the Noel amendment for elective judiciary.

BRYAN "CONCEDES" NEBRASKA.

Says the Fusionists Have Won by Fifteen Thousand Votes.

Lincoln, Nov. 8.—It is evident to both parties in yesterday's fight that Nebraska has repledged her allegiance to the fusion standard. While Republicans are not yet willing to admit defeat, early figures point that way. There has been a steady falling off of the vote of both parties, but, while the fusionists have suffered but lightly, the Republican loss has been not less than three to a precinct. If the present ratio is maintained Governor Holcomb and the fusion state ticket will be elected by not less than 10,000. Fusionists claim much more.

Chairman Edmiston, of the Populist state central committee, said: "We have carried the state by 15,000, and have made gains in county offices."

Chairman Tefft, of the Republican committee, declined to make a statement, but many of his associates admitted defeat, though not conceding it by as large a majority as claimed by the fusionists.

Asked for a statement, W. J. Bryan replied, with laughter:

"I concede the state of Nebraska to the fusionists by 15,000."

This (Lancaster) county elects the entire Republican county ticket with the possible exception of sheriff.

SLIGHT CHANGES IN NEW YORK.

Tammanyites Elated Over the Defeat of Assemblyman Mazet.

New York, Nov. 8.—Returns from state and city so far received indicate that the Republicans will have about the same majority in the next assembly as in the last, the Democratic gains in this city being offset by losses in the smaller counties. The Republicans elect 92 assemblymen, Democrats, 58, a Republican majority of 34 and a Republican gain of 16 seats.

The Democrats suffered grave reverses in Erie county (Buffalo) and Chemung county, the home of ex-Senator David B. Hill. In the city elections up the state the Democratic vote showed a great falling off. Buffalo, Troy and Albany gave large Republican majorities, a complete overturn. Mayor James E. McGuire (Dem.) is re-elected mayor of Syracuse, a tribute to his personal popularity.

In the four counties of New York city the usual big Democratic majorities were rolled up, every candidate in every county being elected except Gray, Democratic candidate for recorder of Kings, against whom charges of corruption had been made.

Tammany shows no elation over the plurality of 50,000 for its New York county ticket, having expected it. The rejoicing is over the defeat of Assemblyman Robert Mazet (Rep.) by Perez M. Stewart, in the Nineteenth assembly district, which usually is strongly Republican. Dr. Nelson V. Henry (Rep.), in the Fifth assembly district, against whom the labor unions made a fight, was re-elected. In the Thirty-fourth congressional district T. B. Vreeland (Rep.) was elected by an enormous majority, at least 19,000.

Three Killed by a Falling Arch.

Booneville, Mo., Nov. 8.—The arch of a new vegetable cellar caved in at the reform school yesterday, killing Charles W. Kaiser, an officer; Ezra Mullon, formerly from Pittsburg, Kan., and W. Ledgerwood. Superintendent L. D. Drake was crushed, but will recover. The arch was 50 feet long and 20 feet high, and was constructed only a short time ago.

The Stricken Vice President.

Paterson, N. J., Nov. 8.—At midnight Vice President Hobart's condition was reported to be more favorable. It was stated at his house that Mr. Hobart had been able to sit up in a chair for a short time and had eaten some solid food, something he had not done in three weeks. Dr. Newton, however, would not offer any encouragement as to the vice president's recovery.

Guilty Cashier Fined.

Chicago, Nov. 8.—Cashier C. E. Churchill, of the defunct Globe Savings Bank, was found guilty yesterday and fined $400. The charge was that he accepted deposits, knowing the bank to be insolvent. President Shaulding, of the institution, was found guilty of the same offense and of embezzlement, and is now a convict in the Joliet penitentiary.

THE RESULT IN CENTRE!

The Democrats Carry the County by About 500 Majority.

A REPUBLICAN RECORDER ELECTED

Riddle Will Be the Republican Commissioner—Strohm Gave Archey a Hard Fight for Register But is Defeated.

OFFICIAL RETURNS FROM COUNTY

The election of 1899 has passed into history and in old Centre county the banner of Republicanism has been trailed in the mire of defeat.

The result, as far as the county is concerned, is a complete victory for the Democratic party. They have elected their sheriff, treasurer, commissioners, register, auditors and coroner and carried the county for their state ticket by a safe majority.

Nelson E. Robb, Republican, is elected recorder over J. Calvin Harper, Democrat, by several hundred majority. The Republicans can claim no credit for this, however, as Harper was cut unmercifully by his own party.

James B. Strohm, Republican, gave Archey, Democrat, a great fight for register and was only beaten by a small majority.

The result is a great disappointment to all true Republicans and there seems to be no excuse for it. The ticket was a strong one all through and deserved the hearty support of the party. The day was an ideal one and yet the vote was light throughout the county. The result therefore can be ascribed to the stay-at-home Republican voter and the general apathy.

Here are the names of the men that won :

Sheriff—Cyrus T. Brungart,
Treasurer—Wm. T. Speer.
Register—A. G. Archey.

VALUE OF METALS MINED.

From Leslie's Weekly.

Gold and silver do not cut so large nor so important a figure in the mineral production of the world as it is popularly supposed. Like diamonds and other precious stones, the real value of these finer metals grows relatively less and less as the demands of the world increase for things that may be turned to general and practical uses. Pig iron, steel ingots and copper ore are more potent factors in the march of modern civilization than gold and silver. A glance at the figures of the recent official report of the mineral production of the United States for 1898 illustrates this. Thus the amount of pig iron production in the year was 11,783,934 tons, and of steel ingots 6,609,017 tons, the largest output on record. The copper produced amounted to 526,512,987 pounds, lead to 231,269 tons, while the comparatively little known but highly useful metals known as aluminum figures in the returns at 5,200,000 pounds, with a value of $1,716,000. The value of metallic products in 1898 was $344,096,130, as compared with $302,198,502 in 1897, a gain of $41,897,628. In this total for 1898 the value of the gold and silver together was only about $100,000,000, or lees than a third. All of the metals except nickel made large gains, copper, lead, zinc, aluminum and antimony reaching their maximums in both productions and value. It is interesting to note in this same report that so unattractive a substance as borax was produced to the extent of 16,000,000 pounds, valued at $1,120,000, while the production of precious stones of all kinds amounted in value to only $160,920.

New Five Dollar Bill.

The Treasury Department has decided to adopt as the design for a new five dollar silver certificate to be put into circulation early next year, one of several submitted by the Bureau of Engraving and Printing to Secretary of the Treasury Gage and Chief Wilkie, of the Secret Service Bureau. The most conspicuous feature of the new note will be the departure from the custom of printing the portrait of some distinguished statesman on the face of the bill.

In this case the head of an Indian, with feather head-dress, will be in the centre of the bill. Directly above will be the words "United States of America." and below the word "Five." To the left, and slightly below the head will be printed in light blue ink the Roman numeral "V," and across this in ornamental lettering the word "Five." To the right of the portrait will be the usual words, "Five silver dollars, payable to bearer, etc, etc." In three of the four corners of the face of the bill the Arabic numeral "5" will be placed, a different form of engraving being used in each case to prevent ease in counterfeiting.

Story of a Slave.

To be bound hand and foot for years by the chains of diseases is the worst form of slavery George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work. This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a Godsend to weak sickly, run down people. Every bottle guaranteed. Only 50 cents. Sold by F. Potts Green Druggist.

A Safety Device.

A new electric signal recently invented for railroad crossings gives a series of signals that enables everybody to tell how close and approaching train may be. It is entirely automatic, and the first signal is given at cross roads when the train is a mile and a half away by ringing a bell and displaying a signal that a train will pass within three minutes. The next signal is given when the train is half a mile away and reads:

"Don't cross on peril of your life. Train approaching."

It is thought this new device will prevent many accidents.

Piles Cured in 3 to 6 Nights.

One application gives relief. Dr. Agnew's Ointment is a boon for Itching Piles, or Blind, Bleeding Piles, it relieves quickly and permanently. In skin eruptions it stands without a rival. Thousands of testimonials if you want evidence. 35 cents. —8. Sold by F. Potts Green.

Go to Europe.

The Pittsburg Times believes in encouraging European travel. These are its conclusions on the subject:

"There is no better way of getting a rest than by putting 3,000 miles of water between ourselves and our work, while it helps our point of view of our own country to look upon it for a time from afar. This rush abroad is not hurting the country or the people one whit.

—When the collars worn by some of our stylish young men get so high that the service of a steam fire engine and a hook and ladder crew are required to throw starch to the eaves thereof, it is doubtful if the world makes much progress for a decade or so thereafter.

THE NEW SHIRT FACTORY

It is Now a Sure Thing for Bellefonte —Employees Wanted.

Bellefonte's new industry, the shirt factory, of which there has been so much talk during the past two weeks is now an assured fact and preparations began early this week to move the plant from Lititz to this place. A letter was received Saturday by E. K. Rhoads, president of the Board of Trade, from the manager of the shirt factory, Mr. Witter, in which the latter accepted Bellefonte's offer and authorized him to advertise at once for seventy-five girls to work in the factory. The wages are said to be good and the work very pleasant.

Bellefonte is to be congratulated on securing such a valuable addition to its list of industries and the men who were instrumental in getting it here deserve the thanks and praise of our people for their commendable efforts to boom our little city.

The Appetite of a Goat.

Citizens of the States which have no election this year have reason to be thankful for the deluge of talk they escaped.

AS OTHERS SEE US.

A Philipsburg Writer's Interesting Letter Written After a Visit to Bellefonte.

Below we publish extracts from a very interesting article appearing in the *Bituminous Record*, written by a member of the editorial staff of that paper after a Sunday spent in Bellefonte:

The running of a Sunday train from Tyrone to Lock Haven and return has changed very much the appearance of Bellefonte on Sunday. From one of the most staid and quiet towns in the State, the arrival and departure of these two trains has given it a degree of life and bustle and hustle most unusual to the County Seat. The novelty not yet having worn off, a vast concourse of citizens assemble at the station morning and afternoon, and with the "newsies" after their papers and the hotels and public hacks, the difference between what it was and what it is now can well be imagined. Nor do these hacks run only to the train. Church-going people living somewhat remote from the churches utilize them in going to and coming from church, and this sort of distributes the unusual commotion all over the town. I heard that last Sunday would be the last day for the running of that train, but as I learned from other sources that the experiment of running a Sunday train was proving profitable to the company the report is likely without foundation.

BUSINESS BOOMING.

Business at the County Seat has improved wonderfully since my last visit, which was about a year ago. Then merchants were telling an awful tale of poverty and woe. and going around with faces as long as the moral law. Today every business man is wearing a smile a quarter of a mile wide, and speaks gleefully of the situation and the prospects of the future. Old industries are opening up, population is increasing, values of property advancing, more money is in circulation, and every business seems to be in good shape, the business of undertaking, possibly. excepted.

GOSSIP.

The County Seat is as gossipy as it was when it was a good deal smaller, the increase in population and wealth and the disposition of some—a very few, I am glad to note—to exclusiveness and snobbery—not having caused any difference. The old town never went much in the direction of snobbery, and today, at least among its most progressive and most meritorious citizens, that sort of pomposity is as unpopular as it was years and years ago. But I was speaking of gossip, and should I undertake to give all I heard Saturday night and Sunday in high life, low life and middle life, I could fill a column or more, and then leave fifty per cent. of much that was delectable untold. And mind you, all this gossip was not from lips feminine. The fact is a good many people who ought to know are of the opinion that more male gossips are to be found in Bellefonte than female. That may be true now, but it wasn't when Joe Furey, for the *Watchman*, and "Ganderlegs" Brainerd, for the REPUBLICAN, made a weekly tour of all the dress-making and millinery shops in town in search of items for their respective papers, and on each Wednesday evening would meet and compare notes, the one giving the other any spicy items the other didn't have.

A MAGNIFICENT HOME.

I spent a portion of my brief stay in the County Capital in the handsome and complete home of ex-Governor Hastings. Where the Governor obtained his design I do not know, but certain it is that I could find nothing wanting anywhere about it, from cellar to garret, the possession of which could add to its comforts, its conveniences, its luxuriousness, or its homelike air, unless it might have been a box of cigars on the desk in the well appointed library. I might have loaded my pipe and enjoyed an old-fashioned smoke, but the feeling took possession of me that nothing short of a Fan-Tan cigar would be in keeping with my surroundings.

Imitation is said to be the sincerest kind of flattery, and if that is true, then the highest compliment I can pay the Governor and his wife in connection with their home and furnishings, is to say that if I should ever have the pleasure of building myself another home, and am in the possession of the means to do so, I will call on him for a copy of his plans, omitting, perhaps a few of the stone steps.

Every room is richly, not gaudily, furnished, and there is not a nook or corner in the large house that is not worthy of inspection. You should see the library—its arrangements, the books, and the novel method by which it is lighted. And the several bath rooms, especially the one adjoining the rooms of the governor and his wife—models of beauty in fixtures, finish and equipment. I will not attempt to describe the building. Couldn't do so if I felt so disposed.

Proud of their home? Well, who would not take pride in such a home? Pride of home is commendable. But don't for one moment imagine that their pride is of that ikind which makes a visitor or guest feel ill at ease. If such an idea has entered your mind, the next time you have occasion to go to Bellefonte, and are possessed with curiosity to see perhaps the handsomest home in this section of the State, don't let any feeling of diffidence prevent you from calling. See how cordially, how unostentatiously you will be received and entertained—how much at home you will be made.

During my call I had the pleasure o meeting Mr. and Mrs. W. F. Reeder, both well and favorably known to many Philipsburgers, and Mr. Ross Hickok, son of the late owner of W. O. Hickok's large manufacturing establishment at Harrisburg, some of the products of which are shipped to every country in the world. Mr. H., who is a graduate of Yale college, also prides himself on his ability to earn a living at his trade—that of a moulder, his father having required that his sons should have practical knowledge of some one or other of the departments of the business to which they were likely to succeed. His engagement with Miss Helen Hastings was made public several months ago.

Every Month

there are thousands of women who nearly suffer death from irregular menses. Sometimes the "period" comes too often — sometimes not often enough—sometimes the flow is too scant, and again it is too profuse. Each symptom shows that Nature needs help, and that there is trouble in the organs concerned. Be careful when in any of the above conditions. Don't take any and every nostrum advertised to cure female troubles.

BRADFIELD'S FEMALE REGULATOR

is the one safe and sure medicine for irregular or painful menstruation. It cures all the ailments that are caused by irregularity, such as leucorrhœa, falling of the womb, nervousness; pains in the head, back, breasts, shoulders, sides, hips and limbs. By regulating the menses so that they occur every twenty-eighth day, all those aches disappear together. Just before your time comes, get a bottle and see how much good it will do you. Druggists sell it at $1.

Wounded a Bear.

C. M. Robison is the name of the Pennsylvania Railroad company's telegraph operator at the Spruce Creek tower. Wednesday a huge bear emerged from the timbered mountain in that vicinity and leisurely approached the young operator's place of business. But if he did, bruin soon discovered that there were worse jaggers than the thistles of the woods to contend with at the open spot. Robison happened to own a gun, and he was smart enough to have it within reach; perhaps for protection against intruding and designing tramps, but the gun was on hand anyhow.

On the appearance of the bear the gun in an instant by the help of the operator took a horizontal position with muzzle lowered somewhat, and sent a bullet whizzing through the air. The missil went straight for bruin, and hit him, too but not in a vital spot. Before a second load could be put in the gun the bear made good his escape into hiding. The operator could not leave his post, so hostilities had to be temporarily suspended. Operations began Thursday again in real earnest. Robison with his gun—true as steel every time it shoots—on his shoulder caught the trail Thursday morning and peppered another load into his hide, but again not a fatal one. This occurred about half a mile from Spruce Creek. Other parties are on the trail and it is expected that half the village of Spruce Creek will soon be subsisting on bear meat.—Tyrone Herald.

Awful Experience with Heart Disease.

That Dr. Agnew's Cure for the Heart works like magic, and cures as proven by the testimony of Mr. L. J. Law, Toronto, Can. "I was so sorely troubled with heart disease that I was unable for 18 months to lie down in bed lest I smother. After taking one dose of Dr. Agnew's Heart Cure, I retired and slept soundly. I used one bottle and the trouble has not returned."—6.

A Long Time in Getting Returns.

During the civil war many soldiers who went to the front invested part of their army pay in buying up part sections of government land situated in western states then thinly populated and unsettled. In taking up a tract to secure a good title, a five years residence was required and the tract improved, otherwise the tract could be pre-empted. The soldiers however, were exempt from this clause, and they were allowed the time in service to be deducted from the five years. Quite a number of soldiers from this county took advantage of the opportunity to make investment, and took up tracts paying about $40 for a section of 80 acres. Many of them never saw thei racts and some even forgot of their transactions, and lost their records. The matter has been revived of late by parties who are investigating the records, and are buying up the claims. John Martz, of Centre Hall, a member of the 148th P V. I, was among those who bought a tract of 80 acres in Minnesota. He had forgotten all about the transaction, and lost his records in the fire which destroyed the Kurtz & Son mills and the dwelling occupied by Martz. A few days ago John received a letter from a firm offering him about $100 for his claim on the tract. It is needless to say he promptly accepted the offer. There are other old soldiers in the county who will receive similar benefits.

A Gun That Makes For Peace.

The Chicago Times-Herald sees the dawn of universal peace brought nearer by the recent performance of a six-pounder rapid gun which fired sixty shots a minute.

"The work of increasing the destructive capabilities of the modern rapid fire gun," it says, "is justified on the score that if we must have war it should be as brief as possible. Let the action be short, sharp and decisive. The perfection of these weapons by mechanical skill is also defended on the ground that the more terrible their possibilities of slaughter the more certain are they to invite universal peace."

Beauty is born in the blood. Beauty is more than "skin deep," it is blood deep. When the blood is tainted by disease the flesh will feel it and the skin will show it. Sallow or muddy complexions, pimples, blotches and eruptions are only the surface signs of impure blood. Face washes, lotions, complexion powders may palliate the evils but they cannot cure the disease. The only cure is to cleanse the blood of the poisonous matter which is the cause of the outbreak in the flesh and skin. Impure blood can be absolutely purified by the use of Dr. Pierce's Golden Medical Discovery. Its effect on flesh and skin is marked. Sores heal and disappear. The skin becomes smooth and regains its natural color. The eyes brighten and sparkle, the whole body is radiant with the brightness and beauty of health. "Golden Medical Discovery" contains no alcohol, whiskey or other intoxicant, and is absolutely free from opium, cocaine and other narcotics. The use of Dr. Pierce's Pleasant Pellets assist the action of the "Discovery" by cleansing the system of clogging matter.

A Fine Entertainment.

One of the finest musical entertainments ever given in Bellefonte took place at Garmans opera house Friday evening before a fair sized audience composed of Bellefonte's best people. The attraction was the International Grand Operatic Company of London and New York. It is to be regretted that the attendance was not larger as a musical treat such as this company gave is seldom heard in Bellefonte. Those present who appreciate a high class of singing were delighted beyond measure and the acting and costuming was all that could be desired. It is safe to say that if they ever play a return engagement the opera house will be packed to overflowing. It would be hard to discriminate in giving an opinion concerning the relative merits of the performers, but special mention may be made of the Misses Caroll, the soprano singers and of the baritone, Arthur Randolph Seaton.

A Pretty Wedding

At 12 o'clock Thursday, November 2, the wedding of Miss Maude Heberling, of Pennsylvania Furnace, and Edgar Thompson Bechdel, of Blanchard, took place at the home of the bride's parents, Mr. and Mrs. Jos. Heberling, Pennsylvania Furnace, Miss Anna Heberling, sister of the bride, being bridesmaid, and John Robb, of Romola, groomsman. Miss Nancy Heberling, sister of the bride, very ably rendered Mendelssohn's wedding march. The bridal party stood under a large arch of evergreens and chrysanthemums, the parlors being decorated with the same.

The officiating clergyman, was Rev. C. T. Aikens. After the ceremony a sumptuous dinner was served to about fifty guests. Mr. and Mrs. Bechdel will be at home in Eagleville after November 6. Many valuable and useful presents were received, among them a silver tea service from the groom's brother, Charles Bechdel of Uray, Colorado, dinner set from the mother of the groom; table linen, $50 in cash by the bride's father, and other useful and valuable articles.

NEARLY

FIFTY-EIGHT YEARS OLD.

It's a long life, but devotion to the true interests and prosperity of the American People has won for it new friends as the years rolled by and the original members of its family passed to their reward, and these admirers are loyal and steadfast today, with faith in its teachings, and confidence in the information which it brings to their homes and firesides.

As a natural consequence it enjoys in its old age all the vitality and vigor of its youth, strengthened and ripened by the experiences of over half a century. It has lived on its merits, and on the cordial support of progressive Americans.

It is "The New York Weekly Tribune," acknowledged the country over as the leading National family newspaper.

Recognizing its value to those who desire all the news of the State and Nation, the publisher of the BELLEFONTE REPUBLICAN (your own favorite home paper) has entered into an alliance with "The New York Weekly Tribune" which enables him to furnish both papers at the trifling cost of $1.25 per year.

Every farmer and every villager owes to himself to his family and to the community in which he lives, a cordial support of his local newspaper, as it works constantly and unceasingly for his interests in every way, brings to his home all the news and happenings of his neighborhood, the doings of his friends, the condition and prospects for different crops, the prices in home markets, and, in fact, is a weekly visitor which should be found in every wide awake, progressive family.

Just think of it! Both of these papers for only $1.25 a year.

High School Wins at Foot Ball.

A very interesting game of foot ball was played on the Glass Works meadow Saturday afternoon between the Bellefonte High school and the Senior Grammar school. The game was hotly contested from start to finish and at one time it looked as if victory would perch upon the banner of the "Midways" (Grammar School) but the High school recovered themselves and what they did to the "Midways" was something terrible. The score was 16 to 11 in favor of the High school. The line up was as follows:

EDITORIAL.

FROM the fact that we have not heard from Coin Harvey since his return from the last collecting tour, it is a pretty safe guess that he has retired to some quiet sixteen-to-onery in order to count his money.

A STEEL road-way that was constructed in 1892 between Valencia and Gray in Spain, a distance of two miles, is attracting considerable attention. Reports show that the annual cost of keeping it in repair is about $380, against over $5,000 for the former flint stone road.

JAMES K. POLK ran for President on an expansion issue and was elected, and not only was Texas annexed but we expanded several other states and territories during his administration. But no President has yet been elected on an anti-expansion issue. History will repeat itself next year.

FROM one-third to one-half of our national domain was acquired by Democratic Presidents through purchase or treaty with foreign powers, and without consulting the inhabitants. And the expansion of the territory under the American flag was as bitterly denounced then as it is now, and with as little reason.

IT NOW seems certain that the government revenues for the current year will considerably exceed the advance estimates, and will leave a surplus. Under Democratic rule we had to issue bonds in time of peace to meet expenses. Now we have a vast surplus and we are carrying on a war. Are the people ready for another change?

THE President has asked the Postmaster General and the Secretary of the Treasury to devise some means by which packages from soldiers in the Philippines to their friends at home can be admitted without being held up at San Francisco for payment of duty. The difficulty will be to arrange the matter so that these parcels can pass through untaxed, while not letting down the bars for the importation of merchandise, such as cigars, intended for sale. It is likely that the provision adopted will be to require certification by the company officer of the soldier sending the package, in order to secure free admission of the package.

PRAISE FOR THE AMERICAN SOLDIERS IN THE PHILIPPINES.

Edward C. Andre, who is Belgium's Consul at Manila, is visiting Washington. He predicts a speedy end to the insurrection and says that ten thousand Filipinos cannot stand before a regiment of American soldiers, and that the end would have been reached long before this if the present rainy season had not been unusually long and severe. When asked what he thought of what the American soldiers had accomplished over there, Mr. Andre, who is a disinterested witness and who speaks from personal knowledge acquired on the ground, replied: "They have done well, very well. If you only knew the condition of that country, you would be surprised that they have done what they have. The weather has been simply awful—worse this year than usual, and fighting under such conditions is very difficult indeed.

THE RESULT OF THE ELECTION.

The election on Tuesday in Centre county must be acknowledged as a Democratic victory. The entire Democratic ticket, with the exception of J. C. Harper, candidate for Recorder, was elected by a good substantial majority. Matthew F. Riddle will be the Republican representative on the Board of County Commissioners. Numerous and varied are the reasons given for the defeat of the Republican candidates for Sheriff, Treasurer, Register, Commissioners, Auditors and Coroner.

Perhaps the most resistless excuse is that they failed to secure a sufficient portion of the popular vote. The Republican county ticket as a whole was an admirable one and it is lamentable indeed that the Republicans of the county failed to give it honest and loyal support. It is all over now and there is no use in kicking against fate. If the Republicans of Centre county did waver in their allegiance to the old party, the Republicans of the State reiterated their loyalty to Republicanism and Pennsylvania stands today in her accustomed place at the head of the Republican column of States in the Union.

The Republicans were victorious in seven out of the twelve States in which battles were waged on Tuesday. Ohio and Kentucky are sure Republican, and Massachusetts, New York and New Jersey placed their names upon the Republican roll. On the whole the Republicans did remarkably well for an off year. There are other elections to come, and in Centre county, too. The Republican organization in Centre is by no means discouraged by the result of Tuesday's engagement and it is and will be prepared to do further battle for the cause of Republicanism, all it stands for, all it represents.

SECRETARY LONG ON THE REPORT OF THE PHILIPPINE COMMISSION.

Secretary Long said of the preliminary report of the Philippine Commission, which is commended by everybody except the "littler Americans:" "There have been so many misrepresentations and exaggerations that it is delightful to have so valuable and explicit a statement from a Board, the composition of which could not be improved in this country or any other. Two of the men who are members have been long known in their association with our leading Universities; the third gentleman has had more than 12 years diplomatic experience in China, and the fourth is to-day the most conspicuous man in the nation's eye. Three of the men have never been associated in any way with politics, and the fourth, who has not taken any active part in politics, by reason of his diplomatic service, is one of the most respected members of the Democratic party, and certainly cannot be charged with any leaning towards the administration. It is especially gratifying that the report backs up and endorses the position and the statement of the President upon this whole matter.

CONGRATULATION FOR THE VICTORS.

The REPUBLICAN puts aside political prejudice and extends to the victorious Democratic candidates each and all its hearty congratulations and best wishes for a successful and profitable term of office. It is a satisfaction to feel that the men elected are good representative citizens of the county and worthy of the confidence and respect of every one. They will doubtless make efficient and capable officials and their public service therefore, will reflect credit alike to themselves, their respective offices and the people they represent.

IN HIS annual report Secretary of the Treasury Gage will repeat in a general way his recommendation for the establishment of a gold standard by law, and for such reforms in the banking laws as will give to the country a more elastic currency. He believes it to be essential that the note issuing and redeeming functions of the Treasury should be entirely separated from its ordinary operations relative to revenues and expenditures.

The Republican Policy of Protection to American Industries Stimulates Commercial Trade, and Produces Good Times and General Prosperity.

What do the statesmen and orators who were denouncing the revenue-producing qualities of the Dingley law a year ago think of the fact that the custom receipts for the month of September were $19,120,357, and for the three months ending with September $56,638,509? Perhaps they have forgotten the figures of earlier years. The steady decrease of custom revenues under the Wilson and the steady increase under the Dingley law, are to say the least, interesting. Here is the comparison:

Custom receipts Sept., 1894, (1st year Wilson law)	$15,564,900
Custom receipts Sept., 1895, (2nd year Wilson law)	14,653,967
Custom receipts Sept., 1896, (3rd year Wilson law)	11,374,116
Custom receipts Sept. 1897, (1st year Dingley law)	7,943,100
Customs receipts Sept., 1898, (2nd year Dingley law)	16,759,574
Custom receipts Sept., 1899, (3d year Dingley law)	19,120,357

Another evidence of the growth of manufacturing interests under a protective tariff and of the increased ability of our manufacturers to supply the enormously enlarged consumption under protection is found in the fact that the increase in importations from 1870 to 1899 was chiefly in articles of foreign growth for use of manufacturers, while importations of manufactured goods increased but very little, Woolen goods, which in 1870 formed the largest item in the importation of manufactures, amounting in that year to $34,490,668, have fallen to $13,831,961 in 1899, while iron and steel importations, which amounted to $34,665,454 in 1870, have fallen to $12,098,239 in 1899. On the other hand, raw silk for use of manufacturers increased from $3,017,958 in value in 1870 to $32,479,627 in 1899; crude India rubber from $3,459,665 in 1870 to $31,876,342 in 1899; tin for use in manufacturing and tin plate from $1,324,338 in 1870 to $11,843,357 in 1899; hides and skins from $14,402,339 in 1870 to $41,988,045 in 1899, and fibers for use in manufacturing from $6,043,102 in 1870 to $20,290,727 in 1899.

HARD NUTS FOR ANTI-EXPANSIONISTS TO CRACK.

The fact that the exports from the United States to Cuba, Porto Rico, Hawaii and the Philippines were nearly twice as much in the fiscal year 1899 as they were in 1898, and vastly more than in any preceding year, is proving somewhat embarrassing to anti-expansionists. The markets these islands afford under their new relations to the United States, is very much greater than ever before, the only time at which their purchases from us approached those of 1899 being the years during the operation of the reciprocity treaty framed under the McKinley law. The exports to Cuba in the fiscal year 1899 were $18,615,704 against $12,807,661 in 1895, to Porto Rico, $2,635,841 in 1899, against $1,833,545 in 1895; to Hawaii, $9,305,470 in 1899, against $3,723,057 in 1895 and to the Philippines, $40 4,171 in 1899, against $119-255 in 1895.

The increase in importations which has been a marked feature of our foreign commerce in the last few months, is largely due to the increased demands of American manufacturers for those products which cannot be produced at home. Raw silk, fibers, crude rubber, hides and many other articles of this class, for which manufacturers are compelled to go abroad for their material for use in manufacturing, have increased very greatly, while there has been also an increase in the importation of sugar, cocoa and other articles of tropical production, articles which can be produced in the islands which have been recently brought into closer relations with the United States, and which, under the new order of things, we should eventually be able to purchase from our own people, or their capital invested in those islands, instead of sending for them to the people of other nations.

IF THE Spanish treaty was such an awful violation of the doctrines of the Declaration of Independence, why did Mr. Bryan make a special trip to Washington last winter to urge Democratic Senators to vote for its confirmation?

CONSTITUTIONALITY OF THE PUBLIC SCHOOL CUT.

Chief among the issues in the recent political campaign in Pennsylvania was the Governor's Public School Cut. The Democratic spellbinders, one and all, declared against the constitutionality of the Governor's action and varied indeed were the arguments advanced in support of their position. The subject is one that interests our people generally without regard for political bias or party affiliations. Prominent among those who vigorously attacked the constitutionality of the Governor's partial veto was the Honorable George A. Jenks, the Democratic candidate for Governor last year. Mr. Jenks is recognized as one of Pennsylvania's legal giants, a gentleman of profound knowledge and distinguished ability. In a recent political address Mr. Jenks delivered himself of the following as his conception of the executive veto power as applied to the public school appropriation. As an interpretation of Constitutional privilege by and admitted authority on constitutional law Mr. Jenks opinion is well worth careful study and consideration.

The affirmative legislative power is vested in the Senate and the House of Representatives. The Governor of the State has no affirmative power to legislate. His power with reference to bills is confined to the negation of legislation which shall have been formulated and passed by the Assembly. The only general clause in the Constitution which empowers him to exercise the power of negation authorizes the Governor to exercise the veto power only on bills as an unit. An exception made to this grant of power provides that he shall have power to disapprove of any item or items of any bill making appropriations of money embracing distinct items.

"The general rule confines the veto power to bills. The exception to the rule confines his power to items. If under the head of a bill he cut that into fractions no one would contend that such power exists.

"The word item is as distinct and well defined in the exception as the word "bill" defines as to the general grant of power. The sequence is inevitable that he cannot cut an item into fractions any more than he could a bill.

"Under either power he has no right to add to or subtract from any legislation which shall have passed the Legislature. If he exercised the power to change the verbiage of any bill, that power would be as rightfully employed as to a bill which comes under the general power as it would to an item which comes under the exception to the general rule. If he may change the verbiage of an item by which an appropriation was diminished he might with equal propriety change by adding to the amount fixed by the Legislature. The item in the appropriation bill stands on the same plane that the bill does in general legislation, and to use such power is an error or a usurpation."

CONGRESS AND THE PHILIPPINE QUESTION.

It is the unanimous opinion of President McKinley, every member of the Cabinet, and every member of the Philippine Commission, that the first and most imperative duty of Congress, at the coming session, will be to adopt a joint resolution declaring the intention of the United States to permanently retain the ownership of the Philippines, and there is little doubt that such a resolution will be adopted by both House and Senate. If it could be put through at the first day's session, it would do much good, both in the Philippines and at home, but that, of course, is too much to hope for. The House will be the first to adopt the resolution and the Senate will eventually follow, but the antis in the latter body will take advantage of the Senate rules, just as they did when the treaty of peace, the delay in the ratification of which is responsible for every drop of blood shed in the Philippine insurrection, was before the Senate, to delay action by talk about any old thing to prevent a vote. No stronger argument in favor of the adoption of such a resolution could be found than Aguinaldo's recent statement that "The American Congress is soon to meet to decide whether to keep the Philippines." Americans know that that decision has already been made by the people, but residents of the Philippines do not.

A CHURCH WEDDING.—On last Thursday evening Nov. 2nd., at 7:30 o'clock the grandest social event which has occurred in this community for many years took place in the United Evangelical Church at Linden Hall when John W. Zeigler and Miss Lulu Loneberger were united in holy matrimony by Rev. W. W. Rhoads of Centre Hall.

Long before the appointed hour the church was filled to its utmost seating capacity. At 7:28 o'clock Prof. P. H. Meyer of Boalsburg took his seat at the organ and brought the large assemblage to order by a two minutes prelude, and just as he struck the first note of the Lohengrin Wedding March the bridal cortege appeared at the door.

First came H. J. Zeigler, brother of the groom, and Miss Hattie Reitz, and taking their position at the altar were met by Rev. Rhoads. Then came the groom being led to the marriage altar by his sister Miss Katie M. Zeigler, then followed the bride leaning on the arm of her eldest brother Bruce S. Loneberger. The bride was exquisitely attired in white silk trimmed with Italian lace, and having her hair and the front of her waist beautifully decorated with orange blossoms. The groom was attired in black cloth. Miss Reitz was dressed in sky blue silk trimmed with white goods of the same kind.

Miss Zeigler was attired in green serge trimmed with green silk and white ribbon. Both bridesmaids carried bouquets of white chrysanthemums.

After the ceremony the bridal party was conveyed to the home of the bride's parents Mr. and Mrs. Geo. Loneberger where a grand marriage feast was awaiting them. Only the immediate friends of the bride and groom were invited to the house. The tables were laden with the richest viands of the season prepared by baker Harrison of Bellefonte. The main attraction of the feast was the magnificent brides-cake baked at the Harrison Bakery. This was made especially interesting by the bride making the first cut. The bride received many useful and beautiful presents. After the feast the bride and groom started on a trip to Lock Haven.

As already said the bride is a daughter of Mr. and Mrs. Geo. Loneberger of this place and is an accomplished young lady and possesses every qualification to make a kind and good helpmate. The groom is the son of Mr. and Mrs. Henry Zeigler of this place and is an estimable young man and possesses the qualifications characteristic of a good husband. The scribe, as well as, the whole community wish them a happy and prosperous wedded life.

PLEASANT GAP INCIDENTS.

Can give an option on weather we have rain, wind, and sunshine, with mud for accompaniment.

Mr. David Bilger and son visited friends in our village last week.

Messrs. Irvin Harrison and Clarence Noll have taken an extensive paper-wood contract and will employ about ninety men.

Charley you are on forbidden ground; if you are caught trespassing again, those Lemont people will "do you." Better tread easy.

Although the weather of last Tuesday evening was anything but pleasant, the oyster supper held for the benefit of the M. E. parsonage was well attended and proved a financial success. The debt on the new building is being gradually reduced.

In observance of Luther Day, an interesting program was rendered in the Lutheran church on last Sunday evening. The music was of the higher order, and the recitations and responsive readings were very entertaining.

Club No. 3 recently made a vigorous attack on Gettig Bros' shed. Girls before breaking forth in that kind of style, be sure you are not shadowed. Furthermore an out break like that might lead to embarassing results.

Strange things are happening every day. The latest marvel is the appearing and disappearing man. His first *debut* is below the Lutheran church, where he is accompanied by a lady dressed in black, a few minutes later he is seen alone near the Gap; when quick as thought, he appears at Horntown with attire entirely changed. Wonder of Wonders! The reflection of a gray horse accounts for the illusion Bess

AARONSBURG NEWS.

AN EXACTING LANDLORD.

From the London Telegraph.

Here is an amusing anecdote about the Duke of Northumberland, who represented England at the coronation of Charles X on May 27, 1825: "He was believed to be fabulously rich Being this, and an Englishman as well, how could he not be in fashion? The English at that period enjoyed all the popularity which can be possessed outside the ranks of the people. Certain Salons liked them on account of Waterloo. Which was still near enough, and it was a recommendation in ultra circles to Anglicize the French language. So long before his arrival. 'Lord' Northumberland was popular and legendary at Rheims. A flock of opulent folk came to inundate the town. The landlords rubbed their hands." In the previous January a certain house was for sale. Suddenly the coronation was announced for spring. Everyone was delighted. 'Notices were put up for all the rooms to be disposed of. The smallest was to bring in at least 607. for twenty-four hours. One day a man in a black coat and a white tie appeared at the house which was for sale on the square. He addressed himself to the landlord, who eyed him attentively. 'You wish to sell your house?' he asked. 'Yes,' How much do you want for it? 'Ten thousand francs.' But I don't want to buy it.' What do you want?' 'Only to let it. That is different. For a year?' 'No.' 'For six months?' 'No I should like to take it for three days.' 'Ah.' 'How much do you ask me?' Thirty thousand francs.' This gentleman was the agent of 'Lord' Northumberland in quest of an abode for his master during the coronation The landlord had discovered the Englishman and hand guessed the agent. The house was pitiable. The landlord held firm. Before a Champenois the Englishman, beingonly a Norman, yielded. The Duke paid the 30'000f. and spent three days in this house at the rate 400f. an hour."

SHALL WE DISPUTE.

The Opinions of Scores of Our Fellow Citizens?

Residents of Bellefonte like other American citizens, if making an investment want to be sure of getting the worth of their money. They want to know all the whys and wherefores, and in a direct ratio to the value of the investment they burrow and ferret until satisfied with the collateral. Take an instance in the realm of proprietary articles. If we know of a friend who has been cured, we have some faith in the preparation; if we know of two or three our faith increases. If the cures reach scores, all well known citizens, and anyone who still maintains that there is nothing beyond ordinary merit in the said preparation can safely be left to the care of his fellow taxpayers. If he wishes to pick a quarrel with them on the question of their judgment and veracity, he has ample opportunity in Bellefonte to do so. Begin with this case:

Mrs. J. Cowher, of Bishop street, says:—"I was very bad with my back and head. I suffered pain in both and was very restless nights besides being so tired all the time that I could hardly drag myself about. I was very lame across my kidneys and bending over or being on my feet much was extremely painful. Reading about Doan's Kidney Pills and seeing them so highly recommended for these troubles I procured them from F. Potts Greene's drug store. They gave me positive relief, caused me to sleep well, stopped the pains, removed the lameness and invigorated me generally."

Doan's Kidney Pills for sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y. Sole agents for the U. S. Remember the name Doan's and take no substitute.

Miss Susan Wymar.

Miss Susan Wymar, teacher in the Richmond school, Chicago, Ill., writes the following letter to Dr. Hartman regarding Pe-ru-na. She says: "Only those who have suffered as I have, can know what a blessing it is to be able to find relief in Pe-ru-na. This has been my experience. A friend in need is a friend indeed, and every bottle of Pe-ru-na I ever bought proved a good friend to me."—Susan Wymar.

Mrs. Margaretha Dauben, 1214 North Superior St., Racine City, Wis., writes: "I feel so well and good and happy now that pen cannot describe it. Pe-ru-na is everything to me. I have taken several bottles of Pe-ru-na for female complaint. I am in the change of life and it does me good." Pe-ru-na has no equal in all of the irregularities and emergencies peculiar to women caused by pelvic catarrh.

A VICTORY FOR FRENCH

British General Drives Out Boers and Captures Their Camp.

BRITONS EVACUATE STORMBERG

By Order of General Buller, and It Is Said Two Other Towns Are to Be Evacuated—Lieutenant Egerton, of the Powerful, Dead at Ladysmith.

London, Nov. 6.—A special dispatch from Ladysmith, describing Thursday's fighting, says: The artillery duel at dawn, in which the Boers' guns were silenced, was intended to occupy the Boers and to enable Sir George Stewart White to achieve his chief purpose —the capture of the Boer camp behind Besters Hill. For this purpose the Lancers, Hussars, Natal Carbineers and Natal Border Rifles started under General French at sunrise and got within striking distance before the enemy was aware of their presence. A field battery was also sent, and it secured a good position, commanding the enemy's camp, which was a large one, laagered with army wagons and other vehicles.

Bester's Hill was well fortified and provided with good guns. At 9 o'clock the British opened fire, the Boers replying with spirit, but bad aim. The British quickly sent a 42-pound shell into the camp, inflicting terrible loss and spreading panic among the enemy. Our cavalry then stormed the position,

GENERAL FRENCH.

the Boers fleeing precipitately, leaving many dead and wounded, as well as the whole camp and equipment, in the hands of the British. This success will upset the plans of the Orange Free State commanders, and, possibly, will prevent them giving the British further trouble from the west.

The Daily Mail publishes the following dispatch from Burghersdorp, dated Nov. 2: The large British camp at Stormberg Junction has been broken up today by the order of Sir Redvers Buller. Everything, including guns, stores, tents and the usual paraphernalia of a camp is being removed to Queenstown, about 50 miles southeast of Stormberg. An Orange Free State force, about 3,500 strong, with several guns, which for some time was concentrated just across the Orange river, has crossed the bridge at Bethulie, destroying portions of the railway on its march. It is said that in addition to Stormberg, Rosmead Junction and Naauwpoort are to be evacuated.

General Buller, the British commander in South Africa, telegraphs under date of Nov. 5: "Lieutenant Egerton, of the Powerful, is dead at Ladysmith. General Joubert sent in Major C. S. Kinkaid, of the Royal Irish Fusiliers, and nine wounded prisoners. Eight Boers were sent out in exchange, no others being fit to travel. Colonel Brecklehurst, with cavalry, field artillery, the Imperial Light Horse and the Natal mounted volunteers, was engaged today with the enemy to the southwest of Ladysmith. The fighting lasted several hours. Our loss was very small. The bombardment of Ladysmith continued yesterday and today, many Boer shells being pitched into the town."

The Dutch residents of Cape Town, says a news dispatch, have received news of a sanguinary battle fought on Saturday, probably between Ladysmith and Colenso. A large number of the Boers were killed, many being relatives of Natal Dutch residing in Cape Town. The English residents have no knowledge of any engagement.

Transports have just been secured for the Woolwich Howitzer brigade, which will be hurried to the cape. The brigade has 10,000 rounds of 5-inch Lyddite shells awaiting it. According to the estimates, a single shell, falling into a compact body, will kill 300 men. It was demonstrated in the battle of Omdurman, which destroyed the army of Khalifa Abdullah, that large numbers of dervishes were killed by suffocation, while hundreds of vultures and eagles fell upon the battlefield from the same cause.

The general belief in London is that the Boers are now waiting for more guns from Pretoria before attacking Ladysmith. The fact that Sir Redvers Buller appears to have ordered a retirement from Stormberg, and perhaps from other places, relieves to some extent the public mind. Confidence is felt in any measures that General Buller may deem desirable.

Strike Against Convict Stripes.

Santiago de Cuba, Nov. 6.—There was almost a riot in the Santiago prison yesterday when the order was enforced respecting the use of the conventional convict uniform of stripes, with clipped hair and clean shaven faces. The prisoners flatly refused to comply, and the prison officials were compelled to use force. In several instances prisoners were bound during the shearing operations.

Troopships Lost Two Hundred Horses

London, Nov. 6.—The troopship Rapidan, which sailed from Liverpool for South Africa on Nov. 1, but was obliged to turn back owing, to damage received in Friday's storm, lost 200 horses overboard in the gale.

THE GOVERNMENT'S TELEGRAPHS.

General Greely Tells of the Increase in Our New Possessions.

Washington, Nov. 6.—The extent to which the government is constructing and operating cable and telegraph lines as a result of recent territorial acquisitions and control is brought out in the report of General Greely, chief signal officer. This shows that the telegraph system of Cuba, formerly owned and operated by Spain, has been taken over and developed by the signal corps, and that at the close of the fiscal year 2,500 miles of line were in operation, of which 600 miles were absolutely new lines and the remainder largely reconstructed. General Greely recommends the laying of a deep sea cable between Porto Rica and Cuba, which would cost about $600,000. By this means all communications between Porto Rico and the United States would pass over strictly American lines. He also strongly urges a Pacific cable.

In the Philippines, General Greely shows that the efforts of the United States to lay cables for military operations was antagonized by the private companies owning lines there. General Greely says there are certain provisions of the Spanish cable concessions which plainly cannot be acceded to by the United States, especially the absolute cable rights for an indefinite period, not only in the Philippines but in all Spanish possessions in the Pacific. He says it is only a matter of time when Luzon will be connected with Formosa by an international cable, thus giving outlet to Japan and China.

More than 260,000 messages, many long and all on public business, were transmitted from the Philippines in the ten months ending June 30, and over 45,000 in May alone.

RIOTOUS NEGRO MINERS.

They Fire on Houses and Compel the Occupants to Flee.

Macon, Mo., Nov. 6.—A body of negroes got out of the stockade at mine No. 61 yesterday morning and started toward town. On arriving near mine No. 7 they stationed themselves in a railroad cut and began firing into houses. David Gamble's residence was riddled with bullets, and the family had to lie flat on the floor to escape the fusillade. O. L. Trollarn's house was attacked in a similar manner, and several others had to evacuate their homes. Sheriff Clenn left Saturday night and the negroes took advantage of his absence to resume their outrages. He went yesterday to Mine No. 6, and will endeavor to arrest the guilty parties. This second uprising has thoroughly aroused the people of Bevier. Several parties came to Macon today in quest of rifles. There is no lack of volunteers to assist the sheriff.

Admiral Dewey in New York.

New York, Nov. 6.—Admiral Dewey arrived in New York yesterday afternoon. He was alone save for his Chinese valet. He went to the Cambridge hotel. Probably not a dozen people recognized the admiral. It was citizen Dewey this time, and the expression on the admiral's face when he reached the hotel indicated his quiet satisfaction that it was so. Shortly after 7 o'clock the admiral was joined by Mrs. Hazen and Captain and Mrs. Ludlow, and the four dined together in the admiral's suite. The admiral had requested that his plans be kept secret, and his wishes were respected to the letter.

Mischievous Student Shot.

Buckhannon, W. Va., Nov. 6.—Martin Williams, a student at the Conference seminary here, in company with other students, last night burned the president in effigy. Seminary special police hastened to the scene, when the boys ran, and to stop them several shots were fired. Williams fell, and must have lain unconscious for an hour or more. He made his way to his room later and fell unconscious to the floor. A bullet had entered the head below the left eye, piercing the brain. He is in a dangerous condition.

Candidate McLean's Confidence.

Cincinnati, Nov. 6.—John R. McLean, the Democratic candidate for governor of Ohio, gives out an address to voters containing his view of the Ohio election outlook. He says: "All the Democrats have to do is to be careful; watch the votes cast; see them counted after they are cast; see the returns properly made and sealed, shutting out all opportunities to substitute a Hanna ballot for a Democratic one, and victory is completely ours. I say this without qualification, without reserve. Hanna is beaten."

The Initiation Fatality.

Geneva, N. Y., Nov. 6.—The Berkeley drowning case, according to a statement made by District Attorney Moran, of Seneca Falls, N. Y., will be presented to the grand jury of Seneca county. Mr. Moran holds that Dickinson, the student who was with Berkeley at the time, was in one sense liable for Berkeley's death, in that the latter was told to obey the orders of Dickinson while undergoing the preliminary initiation of the Kappa Alpha fraternity. Dickinson should have known the ground before sending him on the errand he did, the district attorney argues.

A Democratic Prediction.

New York, Nov. 6.—Richard Croker, who is personally directing the campaign in the boroughs of Manhattan and the Bronx, says that the Tammany district leaders are increasing their estimates of the Democratic majorities. He claims 50,000 or more plurality in New York county. The Republicans claim a small plurality on the county ticket. The alleged purpose of the Republicans to amend the New York charter so as to give Albany more power over affairs in this city has been taken up by Tammany.

Jealous Husband's Terrible Crime.

St. Louis, Nov. 6.—In a jealous rage George Barthell, a foreman in a wholesale hardware house, yesterday fatally shot his wife, beat his wife's father and mother into insensibility and then killed himself. Barthell had been separated from his wife for four years, and during that time had made repeated requests that she return to him, but to no avail. Mr. and Mrs. Rohlfing have not recovered consciousness and Mrs. Barthell is reported to be dying.

TO FIGHT AGUINALDO.

Expedition Under General Wheaton Leaves Manila.

PROBABLY BOUND FOR DAGUPAN.

This Is Aguinaldo's Latest "Capital," and It Is Hoped That the Poesent Concerted Operations Will Soon Put an End to Organized Insurrection.

Manila, Nov. 6.—Last evening a fleet of transports and gunboats left Manila for the most important expedition of the autumn campaign. Its destination is supposed to be Bagupan or some other northern port. General Wheaton commands, with a brigade consisting of the Thirteenth infantry, the Thirty-third infantry, two guns of the Sixth artillery and two gatlings. A dispatch boat was sent ahead to arrange a rendezvous with the United States cruiser Charleston and the other warships that are patrolling the north coast of Luzon.

The landing will be made under cover of the guns of the fleet. It is assumed here that the purpose of the expedition is to move down the Dagupan-Manila railroad toward Tarlac or to prevent Aguinaldo's forces making another base farther north.

Dagupan and Apparri are the strongholds of the insurgents in the north, and, it is supposed, the points where most of the filibustering parties land.

Since the beginning of hostilities it has been the unanimous opinion of military experts here that Dagupan should be made a base of operations, but sufficient troops have heretofore been lacking. With Generals Wheaton, MacArthur and Lawton moving upon Tarlac from three directions, and the mountains hemming in the other side, the insurgent capital will soon become untenable.

Aguinaldo may attempt to shift his headquarters to the rich tobacco country at the northern end of the island. Possibly he may slide around General Lawton's front to the southern provinces, but as MacArthur's and Lawton's troops are spread across the country from Angel's to Cabanatuan, it will be difficult for the insurgents to escape.

Should the concerted operations succeed organized insurrection, on a large scale, should be at an end early next spring, although guerrilla warfare is likely to continue for a long time. No one anticipates that the insurgents will make many hard battles.

The problem is to move the troops about the country, to maintain transportation and to hold the territory gained.

The moral effect of the arrival of a large American army is calculated upon to sap Aguinaldo's strength by desertions and through the loss of hope among the supporters of the revolutionary movement.

Two columns of General MacArthur's division yesterday took Magaling, about six miles northeast of Angeles. Colonel Smith's force killed 11 insurgents, wounded 128 and captured 50, as well as taking a lot of insurgent transportation. Major O'Brien's force killed 49 insurgents, wounded many and took 28 prisoners. The Americans had 11 men wounded.

PREPARING FOR TROUBLE.

Kentucky Marshals and Militia Must Be in Readiness.

Louisville, Nov. 6.—Ante-election interest was heightened last night by a report from Frankfort containing a hint of some action on the part of United States Marshal A. D. Jones in connection with the state election. In view of widely circulated reports as to the possibility of trouble, and even bloodshed, tomorrow, this report caused much speculation. It told of a letter said to have been received by Deputy Marshal McCarthy, at Frankfort, from Mr. James notifying him not to leave his post of duty tomorrow and to be in readiness to respond to orders by telegraph or telephone from federal headquarters at Louisville. This, it is said, was a copy of a circular sent to all deputy marshals in the state.

Colonel Mengel, of the Louisville Legion, the local organization of militia, last night ordered Company B to be in readiness for duty if called upon. Feeling is intense, but it is generally so just before the election in Kentucky. This was notably so in 1896, but there was little disorder.

Peruvian Rebels Routed.

Lima, Peru, Nov. 6.—The government received official dispatches yesterday announcing the complete defeat and rout of the insurgent commander, General Durand, at Huanaucao, capital of the department of that name, 180 miles northeast of Lima. The insurgents lost many killed and wounded as well as a large quantity of arms and ammunition and many horses. The number of prisoners taken by the government force was large. General Durand and his brothers escaped, but their defeat is regarded as a death blow to the revolution.

German Decoration For Little Alfonso

Madrid, Nov. 6.—Prince Albert, of Prussia, conferred the Order of the Black Eagle upon King Alfonso yesterday. The king, replying in free French, warmly thanked Emperor William. This is the first time the young monarch had made a public speech. An official banquet was given at the palace last evening in honor of Prince Albert and his son.

An Ohio Assassination.

Wheeling, W. Va., Nov. 6.—At Mount Pleasant, in Jefferson county, O., about 15 miles from this city, James W. Gosnell, a farmer, was reading a newspaper about 9 o'clock Saturday night, when two revolver shots rang out, both taking effect in the unfortunate man's back and killing him instantly. The shots were fired through a window.

Death of Francis P. Dewees.

Washington, Nov. 6.—Francis P. Dewees died here yesterday afternoon. He was an assistant attorney general from 1885 to 1893, since which time he has had an extensive practice in the court of claims. He will be buried at his former home, Pottsville, Pa., probably next Wednesday.

GENERAL HARRISON HOME.

Declares He and Ambassador Choate Are as Friendly as Ever.

New York, Nov. 6.—Ex-President Harrison, who went to Paris in May as counsel for Venezuela before the Anglo-Venezuela arbitration commission, was a passenger on the American line steamship St. Paul, which arrived here yesterday. With him were Mrs. Harrison and the baby. The passage across the Atlantic was a rather stormy one, and Mrs. Harrison was sick much of the time.

"I have enjoyed the trip," said General Harrison to a reporter. "After leaving Paris I spent some little time in Germany and while there I saw the kaiser. I talked with him for a short time and found him a very agreeable man. When you ask me what he said I shall have to answer as I did in Germany when one of the reporters there asked me that question, so you will have to ask the kaiser.

Mr. Harrison's attention was called to the fact that it had been reported here that he had a falling out with Mr. Choate. "We are as friendly as ever," he relied; "I think he is a good man for the place and he is doing good work there for the government."

When asked about the Venezuela arbitration question he said: "I do not call the decision of the commission a victory. It was a compromise."

RURAL FREE DELIVERY.

Assistant Postmaster General Heath Strongly Urges Its Extension.

Washington, Nov. 6.—A vigorous plea for rural free delivery is made in the annual report of First Assistant Postmaster General Perry S. Heath. Mr. Heath says the service so far has resulted in increased postal receipts, enchancement of the value of farm lands reached by rural free delivery of from $2 to $3 per acre, a general improvement of the condition of the roads traversed by the rural carrier, and better prices for farm products.

Rural free delivery has been extended to nearly 180,000 persons, at an annual cost of about 84 cents per capita, against an average per capita cost of $2.80 in towns of 5,000 population. "It is a small matter to a resident of a town," says the report, "to be saved a walk of a few hundred yards to the postoffice, while it is a great accommodation to the farmer to be spared a five mile drive for his mail."

By illustration it is shown that the rural service at West Chester, Pa., not only paid for itself, but left a balance of $593 in nine months, after delivering 155,805 pieces of mail matter.

Rich Prizes From Spanish Wrecks.

Santiago, Nov. 6.—It turns out that the wrecks of the warships of Admiral Cevera's squadron here are better than gold mines for the wreckers. A party of the latter has just began to explore the wreck of the torpedo boat destroyer Pluton, and the first diver, it is reported, found $4,000 in the purser's cabin. Last Tuesday some wreckers attempted to board the Cristobal Colon, but found it already occupied by another party, who considered the wreck their property. A fierce fight ensued, in which one man was killed and several wounded.

To Revolutionize Tin Plate Business.

Pittsburg, Nov. 6.—A charter was secured in West Virginia today for the National Tin Plate company, with an authorized capital of $3,000,000. Among the incorporators are ex-Governor Beaver and State Senator Nelson E. Whitaker, of Wheeling, and William Rogers, of Leechburg, Pa. It is said the new company will develop patents of Mr. Rogers which are expected to revolutionize the tin plate business. Acids are done away with entirely, which prevents oxidation and corrosion of the plates.

The Meeting of the Emperors.

Paris, Nov. 6.—The Gaulois, referring to the proposed interview between Emperor Nicholas and Emperor William, says: "Its immediate object is to diminish the effect of Emperor William's visit to England and to consolidate the good relations between Germany and Russia. It will also give an opportunity to examine into certain possible eventualities likely to arise owing to the war in South Africa."

The Stricken Vice President.

Paterson, N. J., Nov. 6.—Everything is quiet at the Hobart residence. There is no change whatever in the vice president's condition. He seems to be growing weaker every day. Messages of sympathy were received yesterday from President McKinley, Secretary of State Hay and General Merritt. Among yesterday's callers at the Hobart residence was Attorney General Griggs.

Charged With Robbing the Mails.

Washington, Nov. 6.—Postoffice inspectors last night arrested William H. Marshall, a letter carrier of this city, on the charge of robbing the mails. Three special delivery letters are said to have been found in Marshall's possession.

A CHEERFUL REPORT.

Treasurer Roberts on the Operations of Last Fiscal Year.

INCREASED USE OF GOLD COIN.

The Effect of the New Revenue Laws Says the Report, is Shown in Increased Receipts Over the Previous Year of $159,089,939.

Washington, Nov. 6.—Hon. Ellis H. Roberts, the treasurer of the United States, in his annual report to Secretary Gage, sums up the operations of the last fiscal year by saying that "a notable activity was exhibited in all kinds of currency, with a marked increase in the use of gold coin, and in a less degree of silver coin, while the prosperity of the country has at no time left any part of the government notes in the treasury, above the demands of daily business in its several offices.

"The effect of the new revenue laws is shown in the receipts for the year, in which there was an increase over 1898 of $56,553,419 from customs and of $102,536,520 from internal revenue. The collections of internal revenue were larger than those for any previous year with the exception of 1866, and the total ordinary receipts, which amounted to $515,960,620. were also the largest on record, with the same exception. The net ordinary expenditures were a little over $605,000,000, an amount exceeded only twice—in 1863 and 1864. There was a deficiency of $89,111,559 in the ordinary revenues. Inclusive of loans and the issue of notes and certificates the total receipts on all accounts, by warrants, were $1,058,451,340 and the total disbursements $946,222,148.

With the addition of the proceeds of the new 3 per cent. loan to the ordinary revenues, there was a fiscal surplus of $100,791,521 for the year. The receipts from the loan represented every part of the country. Of the total of nearly $200,000,000, upwards of $125,000,000 came to the office in Washington in the form of checks on banks in every part of the country. Nearly $29,000,000 was paid in gold, upwards of $25,000,000 in United States notes and the rest in other kinds of money.

"By the improved revenues and the new loan the treasury, notwithstanding the heavy war expenditures, was placed in the independent position so necessary to the soundness of the financial system of the country. The change was no less marked in the aggregate of available resources than in their character, for the gain in the total holdings was almost entirely in gold, and the treasury not only refused tenders of gold in exchange for paper, but increased the use of gold in the disbursements.

"At the close of the year the treasurer was accountable for $947,746,394, against which he held $917,873,925 in cash and credits, the difference consisting of funds classed as unavailable.

"There were in circulation June 30, 1898, $286,572,329 in United States notes, $98,665,580 in treasury notes, $390,659,080 in silver certificates and $223,129,703 in national bank notes. On June 30, 1899, the amounts were: United states notes, $310,547,549; treasury notes, $92,605,792; silver certificates, $401,869,343; national bank notes, $237,832,594. The paper in circulation was thus increased during the year by $43,828,386."

Ex-Governor Foster's Prediction.

Cincinnati, Nov. 6.—The most significant development in the Ohio campaign is the prediction made by ex-Governor Charles Foster, who has been speaking throughout the state for the Republican ticket. He estimates the total vote of the state at 975,000, of which Nash, Republican, will get not less than 465,000; McLean, Democrat, not more than 410,000, and Jones, nonpartisan, and all others will divide the remainder. But after giving these figures on Nash and McLean Mr. Foster said there was a strong probability that Jones would cut down this estimate on the leading candidates, but if he did, three-fourths of the cutting would be on the McLean vote.

Cour d'Alene Miners Convicted.

Moscow, Idaho, Nov. 6.—The jury yesterday returned a verdict of guilty in the case of ten, and not guilty in the case of three of the Cour d'Alene miners who have been on trial on a charge of conspiracy and stopping a United States mail train at Wallace on April 29 last, the day on which the Bunker Hill and Sullivan mill was blown up at Wardner.

Back From the Philippines.

San Francisco, Nov. 6.—The United States transport Ohio arrived here yesterday from Manila, via Guam and Honolulu. She brings three officers and 49 men of the Nevada cavalry and 215 discharged soldiers. Two deaths occurred on the voyage.

Tried Murder, Then Suicided.

York, Pa., Nov. 6.—James W. Stine last night shot Mrs. Molly Mundis in the head and then turned the weapon on himself, with fatal effect. Both are married, and the affair took place at the home of a sister of Mrs. Mundis. Stine wanted the woman to live with him, and she refused, whereupon he remarked: "If we can't live together we'll die together." Mrs. Mundis will recover.

Lovers Killed by a Train.

West Newton, Pa., Nov. 6.—Bert Cougheneur, aged 23 years, and Annie Rhoades, aged 21 years, both of this place, were killed on the Pittsburg, McKeesport and Youghiogheny railroad tracks at 9 o'clock Saturday night They were on the way to attend a dance at Taylor Station. They crossed to the north bound track to avoid an approaching train and were struck by a light engine running backwards. It is said the young couple were engaged to be married.

Young Girl Fatally Burned.

Harrisburg, Nov. 6.—Miss Marian Bowman, aged 15, daughter of Policeman Lewis Bowman, was fatally burned yesterday afternoon at her home. Her mother tried to save her daughter and was also dangerously burned. Miss Bowman was using a curling iron over a lamp, which exploded.

FOUR KILLED, TWO INJURED.

Buried Under Tons of Dirt in a Mahanoy Plane Mine.

Mahanoy, Plane, Pa., Nov. 6.—Four men were killed, two were seriously injured and one had a narrow escape from death by a rush of dirt in the mine operated by Lawrence & Brown, near here, yesterday. The dead are: George Boxshes, Mahanoy Plane; Michael Bornsky, Maizeville; Joseph Boxshes, Mahanoy Plane; Michael Drabig, Maizeville. All were married. Injured: John Curry, back and legs crushed; Michael Hansas, internally injured, recovery doubtful.

The men had been sent into a gangway to remove a large quantity of mine slush which had worked into the place through a breach which the company was filling with dirt from the colliery. A half hour later there was a sudden rush of dirt from above and before the men could escape hundreds of tons of dirt filled the gangway and covered four of the men. The others, who stood further away, were hurled against the sides of heavy timber and and other debris. Michael Wolff was thrown on a small hand car and the impetus of the onrushing dirt sent the car out of harm's way with Wolff on it.

A gang of men was immediately set to work rescuing the men. Curry and Hansas were extricated, but the other four unfortunates could not be reached. A gang of men worked all night in an effort to reach the smothered men, but it was not until this morning that the mangled bodies were reached.

Mississippi Volunteers to Sue.

Chicago, Nov. 6.—More than 300 former members of the Second and Third Mississippi volunteers, who enlisted from Chicago, held a meeting yesterday. A law firm of this city claims to have discovered an old statute of Mississippi which grants a bounty of $60 to every soldier who recruits in its regiments and who is not a resident of the state. Accordingly the volunteers have organized for the purpose of instituting proceedings. Colonel J. F. Power, secretary of state of Mississippi, says the claims are unfounded.

Collision on the Ocean.

New York, Nov. 6.—The steamer Tallahassee, Captain Askins, which left her dock Saturday night for Savannah, returned to her pier at midnight. Captain Askins reports that when off Long Branch his steamer collided with the four masted schooner Senator Sullivan, doing considerable damage to the steamer. After the accident the steamer circled around to find the schooner, but could see nothing of her. It is believed she was sunk and all hands lost.

Spanish Sarcasm.

Madrid, Nov. 6.—A dispatch from Bilboa says that a number of influential Spaniards who were attending a banquet there Saturday, on hearing the report that Ladysmith had fallen, sent a cable to Joseph Chamberlain saying: "On the occasion of the latest war news, the dead nation salutes you," the allusion being to a speech of the Marquis of Salisbury during the Spanish-American conflict, in which he referred to "dying nations."

Samoan Negotiations Deadlocked.

London, Nov. 6.—The Berlin correspondent of The Standard says: The Samoan negotiations have reached a deadlock. Germany does not consider that the Gilbert and Solomon islands would adequately compensate her for waiving the German claims. An agreement, however, would easily be arranged if Great Britain would cede in addition her portions of New Guina.

Chairman Reeder's Prediction.

Philadelphia, Nov. 6.—Chairman Reeder, of the Republican state committee, says he has now received reports from every county in the state conveying conservative estimates of tomorrow's vote. Mr. Reeder said his estimates, based on these returns, is that the Republican state ticket will have a plurality of at least 175,000.

Disadvantages of a "Pull."

Washington, Nov. 4.—Captain Hutcheson, acting judge advocate, department of Missouri, says the great number of discharges granted to soldiers by way of favor is having a demoralizing effect upon discipline, as the impression is going through the rank and file of the army that a soldier can secure his discharge for any cause, provided he can obtain the influence of a senator or a representative.

Girl Strikers Victorious.

East Liverpool, O., Nov. 4.—A meeting was held here yesterday by a committee of the striking warehouse girls and the pottery manufacturers, Secretary Bishop, of the state board of arbitration, presiding. A basis of settlement was agreed on by which the girls will receive an advance of 20½ cents per day. They resumed work today.

Proposed Cigar Syndicate off.

Jacksonville, Nov. 4.—Information received at Tampa, says a dispatch, is to the effect that the United States and Havana cigar syndicate has gone to pieces. Nov. 1 was the date set for the close of negotiations, but the news comes that the negotiations are off and that there will be no further effort to effect a combination.

To Make Thorite at Sandy Hook.

Washington, Nov. 4.—The war department has cancelled the order for the manufacture of the high explosive thorite in the Philippines. After a conference between Secretary Root, the chief of ordnance and the inventor of the explosive it was decided to begin the manufacture of thorite at Sandy Hook immediately.

Three Bodies Recovered.

Chicago, Nov. 4.—Searchers in the ruins of the New England mills, which collapsed Wednesday night, recovered the body of Charles Mullin yesterday. This makes three bodies so far recovered, and the body of Henry Hilton, the bookkeeper of the firm, still remains in the wreck.

Dewey's Sword at His Residence.

Washington, Nov. 4.—The sword presented to Admiral Dewey by congress was removed yesterday from the office of the secretary of the navy, where it has been on public exhibition, to the residence of the admiral.

Only Thirty and Gray

How is this?

Perhaps sleepless nights caused it, or grief, or sickness, or perhaps it was care.

No matter what the cause, you cannot wish to look old at thirty.

Gray hair is starved hair.

The hair bulbs have been deprived of proper food or proper nerve force.

Ayer's Hair Vigor

increases the circulation in the scalp, gives more power to the nerves, supplies missing elements to the hair bulbs.

Used according to directions, gray hair begins to show color in a few days. Soon it has all the softness and richness of youth and the color of early life returns.

Would you like our book on the Hair? We will gladly send it to you.

Write us!

If you do not obtain all the benefits you expected from the Vigor, write the doctor about it. He may be able to suggest something of value to you. Address, Dr. J. C. Ayer Co., Lowell, Mass.

BUCKNELL VICTORIOUS.

The Lewisburg Eleven Spring a Surprise on State.

WILLIAMSPORT, PA., Nov. 6.—For the third time in twelve years the Bucknell foot ball team Saturday defeated the eleven athletic young men representing State College, and several hundred wearers of the Orange and Blue paraded the streets of Williamsport that evening wild with delight. The score at the finish was 5 to 0 in favor of the Lewisburg boys and the members of the victorious team were proudly carried from the field on the shoulders of their fellow students, who had had the dearest desire of their heart gratified in witnessing the defeat of State.

The result of the game was a surprise, as it was generally believed State would win, and bets of 3 to 1 on State were freely offered before the game. About 5,000 people witnessed the contest. The ground was muddy and a chilling wind blew over the field from the west.

It was 3:07 o'clock when Bucknell kicked off, State defending the south goal. State returned the kick and Bucknell sent it back to the 25-yard line. Bucknell soon began making holes in State's line, sending her backs through repeatedly for gains of from 1 to 5 yards. Stanton made a 30-yard run around State's left end, carrying the ball to the 5-yard line. Kase and Stanton were in turn sent through left tackle for good gains, and then Kase was shoved over the line for a touchdown. Matthewson failed to kick the goal. This ended the scoring.

State braced up the second half, but it was too late. Her best efforts were not sufficient to get the coveted goal. Matthewson outpunted Cure at nearly every exchange of kicks. Cure made several unsuccessful efforts to kick a goal from the field. The line-up:

STATE.	POSITION.	BUCKNELL.
Ruble	left end	(capt) Riemer
Randolph (cap)	left tackle	Carlin
Taylor	left guard	Kase
Cummings	centre	Sweet
Scholl	right guard	Gillis
T. Miller	right tackle	Armour
Wood	right end	Freudenberg
Johnson	quarter-back	Bunnell
Burns	left half-back	Stanton
Smith, Harris	right half-back	Weymouth
Cure	full-back	Matthewson

Touchdown, Kase. Referee, first half, Professor Craver, of Dickinson; second half, Charley Young, of Princeton. Umpire, first half, Young; second half, Craver. Time-keepers, State, Geo. K. Meek; Bucknell, Herbert Harris. Linesmen, State, Foster; Bucknell, Dr. R. F. Trainer.

Time, 25 and 20-minute halves.

—While playing with a shoe buttoner that it had accidentally gotten hold of Wednesday of last week Capt. Hugh S. Taylor's year old baby, Frank, jabbed the hook up underneath the upper lid of its eye and when the parents were attracted by the baby's screams of pain their plight was terrible. It was quite early in the morning and neither one of them was fully dressed yet, so that it took some time to get a physician. Meanwhile Capt. Taylor took the child in his arms and was able to remove the hook, but the flow of blood from the wound could not be staunched for some time. Fortunately the little one's sight will not be affected by the injury, from which it is recovering as nicely as could be expected.

To Spread Out.

Altoona is about to enlarge. The thriving boroughs of Millvale, Juniata and Fairview, which join that city, have caught the annexation fever. They will in all probability be accepted by city councils before the close of the year. This addition will give Altoona a population exceeding 50,000 inhabitants and the undisputed position of being the metropolis of central Pennsylvania.

A Commendable Example.

In one of our Western Counties is a Judge who has the courage to act up to his convictions. He announced that if ever he caught a man offering another man a drink of whiskey for his vote he would send him to jail for six months and fine him $500.00 and in several cases he carried it out, and as a consequence the elections in that county, are not nearly as corrupt as they were.

"A Feast of Days."

The first week in December the ladies of the W. C. T. U. in their rooms in Allisons Block will offer for sale a fine display of useful and ornamental articles suitable for X-mas. The young ladies report encouraging success along the lines of their department, and the display will no doubt do justice to their efforts.

THE PHILIPPINES

As Viewed by President McKinley's Special Commissioners.

THE PEOPLE INTELLIGENT,

But as Yet They Are Incapable of Self Government.

THE DEALINGS WITH AGUINALDO.

At No Time Was the Insurgent Leader Promised the Aid of This Government in Establishing the Independence of the Islands, Though He Took the Responsibility of Promising It on Behalf of the United States.

Washington, Nov. 3.—The Philippine commission yesterday submitted to the president the preliminary report which it had promised to prepare. The commission tells briefly how it conducted the task entrusted to it, hearing statements from all classes of people in Manila.

Turning to the history of the islands the commission attaches little importance to the divers rebellions which had preceded that of 1896. As to this movement, they declare that it was in no sense an attempt to win independence, but solely to obtain relief from intolerable abuses. The commission declares that the demands had good grounds.

The war begun in 1896 was terminated by the treaty of Biac-Na-Bate. The Filipinos were numerous, but possessed only about 800 small arms. The Spanish felt that it would require 100,000 men to capture their stronghold and concluded to resort to the use of money. Certain concessions were also decided upon. The arrangement was not acceptable to the people, the promises were never carried out, and Spanish abuses began afresh, in Manila alone more than 200 men being executed. Hence sporadic risings occurred.

The report then tells how General Augustine came to Manila as governor general at this juncture, and war broke out between Spain and the United States. Augustine sought to secure the support of the Filipinos to defend Spain against America, promising them automony, but the Filipinos did not trust him. Then came the first of May and the destruction of the Spanish fleet by Dewey, with the resulting loss of prestige to Spain.

No Promise to Aguinaldo.

Then follows Admiral Dewey's communications with E. Spencer Pratt, our consul general at Singapore, previous to the fall of Manila, regarding a proposed conference with Aguinaldo, the story of the departure of the squadron from Singapore and arrival at Manila. The report says:

"Upon the arrival of the squadron at Manila it was found that there was no insurrection to speak of, and it was accordingly decided to allow Aguinaldo to come to Cavite on board the McCulloch. He arrived with 13 of his staff on May 19 and immediately came on board the Olympia to call on the commander-in-chief, after which he was allowed to land at Cavite and organize an army. No alliance of any kind was entered into with Aguinaldo, nor was any promise of independence made to him, then or at any other time."

The commission's report then rapidly sketches events now historical. It tells in substance how the Filipinos attacked the Spanish and how General Anderson arrived, and Aguinaldo, at his request, moved from Cavite to Bacoor. Says the commission:

"Now for the first time arose the idea of national independence. Aguinaldo issued a proclamation, in which he took the responsibility of promising it to his people on behalf of the American government, although he admitted freely in private conversation with members of his cabinet that neither Admiral Dewey nor any other American had made him any such promise."

The report states that Aguinaldo wished to attack the Americans when they landed at Paranaque, but was deterred by lack of arms and ammunition. From that point on there was a growing friction between the Filipinos and the American troops. There never was any preconcerted operations or any combined movement by the United States and Filipinos against the Spaniards.

A brief chapter then tells of the lack of success attending the effort made at this time by General Merritt, through a commission, to arrive at a mutual understanding with Aguinaldo as to his intentions, purposes and desires of the Filipino people. This brings the story up to the outbreak on the evening of the 4th of February, with the attack upon the American troops following the action of the Nebraska sentinel. The commission, in concluding this chapter, says:

The War Unavoidable.

"After the landing of our troops Aguinaldo made up his mind that it would be necessary to fight the Americans, and after the making of the treaty of peace at Paris this determination was strengthened. Deplorable as war is, the one in which we are now engaged was unavoidable by us. The commission is of the opinion that there has been no time since the destruction of the Spanish squadron by Admiral Dewey when it was possible to withdraw our forces from the islands either with honor to ourselves or with safety to the inhabitants."

The commission then takes up the conditions of the country at the time of their arrival, comparing it with conditions existing at the time they left a short time ago. A vivid picture is given of the anarchy existing among the inhabitants in and about Manila during the early spring. The report then speaks of the issuance of the commission's proclamation and the good effects it had on public sentiment. The natives, accustomed to Spanish promises, urged upon the commission that acts instead of promises should be given them. As a result native law courts were established, and this greatly aided in the restoration of public confidence. As showing the limited scope of the rebellion the commission states:

"We learned that the strong anti-American feeling was confined to the Tagalog provinces, but it should not be supposed that even in the six provinces immediately adjacent to Manila the people were united in their opposition to us. Even here there was a strong conservative element, consisting of people of wealth and intelligence, opposed to the war."

Under the head "the rebellion not a national movement," the report treats of the rebellion outside of the provinces of Luzon, where, it is stated, the uprising was viewed at first with indifference and later with fear. Throughout the archipelago at large there was trouble only at those points to which armed Tagalogs had been sent in considerable numbers. In many provinces there was absolute anarchy, and from all sides came petitions for protection and help.

As to the state of affairs when the commission left, the report says:

"Before the commission left the Philippines nearly all the inhabitants had returned to the ruined villages. Many of the houses had been rebuilt. Fields that had lain fallow for three years were green with growing crops. Municipal governments had been established, and the people, protected by our troops, were enjoying peace, security and a degree of participation in their own government previously unknown in the history of the Philippines."

The Municipal Governments.

A chapter follows on the establishment of municipal governments, saying that with a single exception the officials elected proved worthy. In the Tagalog province of Luzon, where the anti-American feeling had been strongest, public sentiment had greatly changed. "The only island apart from Luzon," says the report, "where serious trouble threatens is Panay."

Special attention is given to the Island of Negros, as this seemed a field well adapted to the extension of an American system. Here the natives had adopted a local form of government, including a congress, and had raised the American flag. They believed themselves capable of managing their own affairs, and asked for a battalion of troops to hold in check a mountainous band of fanatics. The battalion was furnished, but the people proved unable to carry out their program. The commission says:

"The flat failure of this attempt to establish an independent native government in Negros, conducted as it was under the most favorable circumstances, makes it apparent that here, as well as in the less favored provinces, a large amount of American control is at present absolutely essential to a successful administration of public affairs."

The efforts at conciliation with Aguinaldo and his various commissions are set forth in detail. The commission adds that nothing came of negotiations, as Aguinaldo's emissaries were without power and merely came, and came again, for information.

Concerning the Filipinos' intellectual capacities the commission says:

"The commission is disposed to rate them high. But excepting in a limited number of persons these capacities have not been developed by education or experience. The masses of the people are uneducated. That intelligent public opinion on which popular government rests does not exist in the Philippines. And it cannot exist until education has elevated the masses. Even then the power of self government cannot be assumed without considerable previous training and experience."

Incapable of Self Government.

The report shows that this inability for self government is due to the old Spanish regime, which gave the Filipinos little or no part in governing themselves. After reviewing this Spanish system the commission says:

"Should our power by any fatality be withdrawn the commission believes that the government of the Philippines would lapse into anarchy, which would excuse, if it did not necessitate, the intervention of other powers, and the eventual division of the islands among them. Only through American occupation, therefore, is the idea of a free, self governing and united Philippine commonwealth at all conceivable. And the indispensable need from the Filipino point of view of maintaining American soverignty over the archipelago is recognized by all intelligent Filipinos and even by those insurgents who desire an American protectorate. The latter, it is true, would take the revenues and leave us the responsibilities. Nevertheless, they recognize the indubitable fact that the Filipinos cannot stand alone."

One of the closing chapters of the report is devoted to a tribute to "our soldiers and sailors in the war." The commission says that the presence of Admiral Dewey as a member of this body makes it unfitting to dwell on its personal achievements, but he joins in the eulogy of his comrades.

The War Humanely Conducted.

The commission dismisses the reports of the desecrating of churches, the murdering of prisoners and the committing of unmentionable crimes, and says it is glad to express the belief that a war was never more humanely conducted.

The commission gives a general view of the value of the islands, their richness in agricultural and forest products, their mineral wealth, and their commanding geographical position. They state that the Filipino islands should soon become one of the great trade centers of the east.

The report concludes:

"Our control means to the inhabitants of the Philippines internal peace and order, a guarantee against foreign aggression and against the dismemberment of their country, commercial and industrial prosperity and as large a share of the affairs of government as they shall have prove fit to take. When peace and prosperity shall have been established throughout the archipelago, when education shall have become general, then, in the language of a leading Filipino, his people will, under our guidance, "become more American than the Americans themselves."

The report is signed by J. G. Schurman, George Dewey, Charles Denby and Dean C. Worcester.

The Postoffice Business.

Many people will be surprised to learn that the postal establishment of the United States is the greatest business concern in the world Charles Emory Smith says that it handles more pieces, employs more men, spends more money, brings more revenue, uses more agencies reaches more homes, involves more details, and touches more interests than any other human organization, public or private, governmental, or corporate. The post office department directs 7,357 postoffices, musters an army of 200,000 employes, spends this year $105,000,000, and counts receipts of nearly the same amount. It handled last year 6 214,447,000 pieces of mail matter, of which 2,825,767 000 were letters, so that every minute confides 12,000 new messages to its hands. It manufactured and delivered postage stamps to the number of 3,623,821,608, and the value of $71,788,333; It carried 2,069,742,000 newspapers.

A Decision of Special Interest to Supervisors and Auditors.

Judge Love handed down a decision Wednesday that is of especial interest to township Supervisors and Auditors.

In July, 1898, Supervisor John Bilger, of Spring township, this county was notified by the Constable of the township to cut certain Canada thistles on lands along the public road before the thistle went to seed, under penalty of prosecution. Bilgar cut the thistles and received pay for the same from the Township Treasurer. Last spring, when the Auditors audited the township accounts they surcharged Bilger with the amount. Bilger brought suit against the township authorities to recover for the work done, and at the last term of court a jury awarded him a verdict for the amount, $9.35. Judge Love handed down his decision, setting aside the verdict of the jury, in a declaration that Supervisor Bilger cannot recover from the township, according to the law, but must bring suit against the owner of the property.

Have You Heard Of It?

You may have heard about SCOTT'S EMULSION and have a vague notion that it is cod-liver oil with its bad taste and smell and all its other repulsive features. It is cod-liver oil, the purest and the best in the world, but made so palatable that almost everybody can take it. Nearly all children like it and ask for more.

SCOTT'S EMULSION

looks like cream; it nourishes the wasted body of the baby, child or adult better than cream or any other food in existence. It bears about the same relation to other emulsions that cream does to milk. If you have had any experience with other so-called "just as good" preparations, you will find that this is a fact.

The hypophosphites that are combined with the cod-liver oil give additional value to it because they tone up the nervous system and impart strength to the whole body.

—The Reverend Bishop Daniel A. Goodsell of Chattanooga Tenn., has been appointed to preside over the next annual session of the Central Pennsylvania Conference of the Methodist Episcopal Church to be held at Hazelton in March 1900.

—The old Baptist church at Milesburg which has been thoroughly renovated and repaired at a cost of over $500 was reopened to public worship last Sunday. Impressive and interesting services were conducted by Rev, S, F. Forgeus, D. D. Chaplain of the Industrial Reformatory at Huntingdon.

—Quite an exciting run off occurred at Howard Monday morning. Mr. Isaac Frain who lives at Abdera, was holding his team of colts, at the depot, they became frightened at the cars and ran away knocking Mr. Frain down, and running over him, he received a few scratches, and one of the horses had its leg hurt.

—The opening of the Shirt Factory at Bellefonte is an assured fact about 75 young women and girls can secure employment at renumerative wages. Any wishing situations should make application at once by giving the name to John C. Miller at his office No. 3 East High Street, who can give full particulars.

—The Misses Rider, daughters of a farmer residing on Short mountain, in Blair county, have just made the record of husking 1 300 bushels of corn in eight and one-half days. Of Course the young ladies were precluded from piano playing while pulling the whiskers and exposing the corn that had already been shocked.

—In an attempt to steal articles from a show window through a broken glass Daniel M. Peer, the 14 year-old son of James Peer, of Johnstown, at 5 o'clock Thursday morning, was shot near the heart by J. M. Bucher, a grocer, whose place of business is about 150 feet from the Peer home in that city. The boy ran home and died in half an hour.

—Sheldon Roberts, a teacher of the public school at Cookport, Indiana county, was accidentally killed while hunting in that vicinity last Saturday. He went to the woods with one of his pupils named Rankin. Rankin tripped on a log and the shotgun he carried was discharged, the load striking Roberts in the back. He fell forward, raised up, and saying "My dear boy, you have killed me," rolled over on his side dead. Mr. Roberts was about 25 years of age and was an exemplary young man.—Ex.

—Garman's opera house was crowded Monday evening to see "Uncle Josh Spruceby." The crush to get in was simply tremendous and anyone trying to get through the mob was in danger of his or her life. The company gave very good satisfaction some of the specialties being unusually clever. The orchestra composed of 12 soloists was one of the best ever seen here.

—The Jeffries-Sharkey fight created great interest in Bellefonte and quite a number of people gathered at the Brant House Friday evening to hear the returns from the ringside. Through the enterprise of the Yeager brothers and the courtesy of Manager W. L. Malin, of the Bell Telephone company, the news at the end of each round was received in a very satisfactory manner. It was received over the long-distance telephone from the Times office at Altoona. The crowd cheered heartily when the news came that Jeffries had won at the end of the twenty-fifth round.

Dr. J. C. Culbertson, a member of the Cincinnati School Board, believes the schools should be moved out into the country and the pupils supplied with car rides and lunches by the municipality.

JOHN C. MARTIN DEAD.

Former Postmaster at Milesburg Under President Cleveland.

John C. Martin, who for the past twenty years has been a resident of our sister town of Milesburg, died at his home in that place on Thursday evening at 7:30 o'clock.

During the latter part of last September he went to Philadelphia where he spent ten days with his son, Daniel, who is a conductor on a street car line in that city, and while there contracted a severe cold which settled in a wound in his side and since then he has suffered intensely. All day Thursday he was in good spirits and apparently improving but during a sudden sinking spell he passed away at the above stated time.

John C. Martin was born in Howard, this county, on the 9th of August, 1844, making his age at time of death 55 years, 2 months and 24 days. He was a son of Hugh Martin, a respected citizen of that earlier day, and was the last survivor of a family of nine children.

In 1872 he married Miss Catherine Emel, who survives him, with eight children, namely, William, James, Daniel H., Patrick, Lizzie and John, and Mary and Raymond adopted, children of a deceased brother.

His business was that of a puddler and for a number of years was employed at the McCoy & Linn works at Milesburg, but on account of the drain upon his constitution from his wounds has not followed his trade for many years. During both administrations of President Cleveland he served as postmaster at Milesburg and was an efficient, accommodating official. He was an ardent Democrat and in every campaign was active in the interests of his party. He was known all over the county, the late Governor Curtin being one of his warmest friends. He was a warm hearted and generous man and highly respected by all who knew him.

At the breaking out of the Civil war in 1861 he enlisted in Company A, 45th Pennsylvania Volunteers, and after the expiration of his three years' term re-enlisted and served until the regiment was mustered out in 1865.

The funeral took place on Monday, leaving his late residence at 9:00 a. m. After services in the Catholic church on Bishop street at 10 o'clock interment was made in the Catholic cemetery.

Members of the Gregg Post No. 95 G. A. R. Attention!

Members of Gregg Post No. 95 G. A. R. will take notice that on next Saturday evening November 11th at early candle light Gen. Samuel Rhule, of Philipsburg, division inspector of the Grand Army of the Republic, department of Pennsylvania, will inspect the Gregg Post No. 95, G. A. R., at their hall in this place. In addition to the inspection there will be choice refreshments served to all and a general good time is in prospect. All members are requested to be present without fail by order of Samuel Sheffer, commander.

Snow Shoe Booming.

As an indication of the booming times in the Snow Shoe coal region, there are now five engines and crews employed transporting the output from the mines over the Bellefonte and Snow Shoe Road to the Bald Eagle Valley, whereas less than a year ago one engine did the combined work of hauling the freight and passenger traffic.

The number of miners now employed in the Snow Shoe region is the greatest since the discovery of coal in Centre county fifty years ago, and they are all earning good wages.

Military Matters.

By orders issued from the adjutant general's office these commissions have been issued:

First Lieutenant Charles J. Taylor company B. with rank from October 6, 1899, vice George L. Jackson, resigned.

Second Lieutenant Philip F. Garbrick, company B. with rank from October 6, 1899, vice Charles J. Taylor, to first lieutenant.

Among the appointments is that of Andrew S. Stayer, of Blair county, to be surgeon, with the rank of major, assigned to Fifth regiment.

UNCLAIMED LETTERS.

The following letters remain in the Bellefonte P. O. uncalled for Nov. 6th, 1899:

Frank Butler, Wm. Brin, B. G. Cushman, Willis Cutly, G. W. Gray, Jeff. Hayden, Dallie Thompson, Laird Walker, Mrs. L. Whitehead, Mrs. H. M. Wilson.

When called for please say advertised.

W. W. MONTGOMERY, P. M.

—The remains of Harry J. Walker, who was drowned in Sinnemahoning creek on Thursday were taken in charge by a Renovo undertaker and were taken to that place Friday night. Saturday the body was sent to Snow Shoe where interment was made.

—Charles Kaylor, a young man of 20 years, while driving down a hill near Patton a few days ago with a load of bark, fell from the top of the load and the wheel of the wagon passed over his head. His head was crushed to a jelly and death was instantaneous.

COUNCIL MEETING.

The Bills Paid Amounted to $1143,80—Other Business Transacted.

The postponed session of council was held Wednesday evening at 7:30 with President Gerberich in the chair and the following members present: Walkey, Wetzel, Tripple, Garrity.

Pennsylvania Match Company asked council to extend water to their factory now in course of construction near the Phoenix Mill and put in a fire plug. They asked for an exoneration of water tax for an unstated time.

An inspection of the high pressure boilers at the water works showed them to be in first class condition and capable of being operated at the speed of 100 lbs to the square inch.

The report of Prof. G. G. Pond, of State College, was then read in which he states that the water in the big spring was pure and entirely free from disease.

The market committee reported collecting $9.00 market fees.

The report of the Finance Committee was as follows:

Boro orders paid		1,260,33
Water orders paid		300,56
		89, 864, 94
Recd of High Constable	3,10	
" " mkt clerk	9,00	
" " Coll 1899	9.350,58	9,362,68
Bal due Treas. Nov. 6		$497,74

A petition was received from citizens requesting and arc light to be placed at the P. R. R. crossing between the round house and the Glass Works.

Street committee reported repairing South Allegheny street from Bishop to Logan alley. Also repaired East Beaver street. All the streets in town have been cleaned and the dirt hauled away. Mr. Garrity urged that the repairs on South Allegheny street be finished clear to the top of the hill. Mr. Walkey joined in this request.

The water committee handed in their report of the work done in their department. Steam pump running 24 hours. Pumps and boilers in good condition.

Mr. Wetzel moved seconded by Garrity that the 4 inch water pipe be laid to the Match factory and a fire plug be placed there as requested. It was so ordered and the bid of Schad Brothers for 375 feet of cast iron pipe was accepted.

The request for an arc light near Glass Works was referred to street committee to investigate and report at next meeting.

P. Gray Meek presented a bill to council for iron rods which he had placed in his building which he claimed was damaged by being jarred by heavy wagons passing over High street bridge. Referred to street committee for investigation and report.

Council decided to finish repairs to South Allegheny street as requested by Messrs. Garrity and Walkey.

Under the head of new business Mr. Garrity made an earnest appeal to council to raise the wages of the men working on the streets from $1,10 to $1,25 per day. As wages of labor are advancing in every branch of labor he thought these men's wages should be advanced.

Mr. Wetzel moved seconded by Garrity that the wages of the men working on the streets be 12½ cents per hour beginning Nov 6th. It was so ordered. This is at the rate of $1,25 per day.

The following bills were approved and orders drawn:

Jared Harper Retires From Business

After a business career extending over many years Jared Harper, one of Bellefonts oldest merchants has decided to retire from the cares and drudgery of active business and will take up the joys of a retired life. Mr. Harper through all these years has maintained a reputation for strict honesty and business integrity of which he can well be proud.

He will be succeeded in the grocery business by his two nephews, Jerome and Edward Harper, who will take charge of the business Dec 1st. The new firm name will be Harper Brother's & Co. They are both young men who have many friends in Bellefonte who wish them much success in their business enterprise.

—The stay at home voter is not of the best class of citizens, no matter what good qualities he may possess.

—The Undine fire company will hold their annual Thanksgiving ball in the armory on the evening of the 29th of November.

—John Fravel, one of Centre County's veterans residing at Nittany Hall, has had his pension not only restored but increased from $4 to $8 per month.

—The 17th Anniversary of the children's Home Mission Society will be celebrated in the Lutheran church on Sunday evening. A beautiful program will be rendered by the Sunday School.

—The friends and neighbors of Mrs. William Derstine, wife of Councilman William Derstine, celebrated her birthday with a large and enjoyable surprise party at her home on North Penn street Tuesday evening.

—Manager Wm. H. Garman wishes us to correct the report in circulation to the effect that the opera house management raised the price of admission to their patrons at last Monday evenings show. This was not the case at all. The prices advertised in the Daily News were 10, 20, 30 and 50 cents and this price was strictly adhered to. The trouble was that owing to the great rush to attend the show the 10 cents seats were all sold early in the evening and those coming later were compelled to buy the higher priced seats or go without. This was not fault of the management and they wish to state that their prices will always be as just advertised, no higher; no lower.

—We now know the results of Tuesday's elections and yet we find that the world is still moving along and, apparently, is in a condition to exist for some time to come. No matter how the voters act the universe seems to be able to exist.

PROTECT OUR FOOD.

The doctors inform us that alum is a poison, and that alum baking powders should be avoided because they make the food unwholesome. Prominent hygienists who have given the matter most study, regard these powders as an evil that should be suppressed by state action. In Minnesota and Wisconsin alum powders are not premitted to be sold unless they are branded to warn consumers of their true character, while in the District of Columbia the authorities have under the direction of Congress, adopted regulations to prohibit the use of alum in bread altogether.

Are not the people of other states, as well as those of Minnesota and Wisconsin, entitled to warning of a danger which is apparently menacing them at close hand, and is not the whole country entitled to absolute protection, as the people of the District of Columbia are protected, by legislation which is entirely prohibitive?

Until we can have protection in the form of a statute, how can our state boards of health, state analysts or food commissions better serve the public than by publishing in the newspapers from time to time the names of the baking powders which they find to be made from alum?

Meantime, it will aid the housewife in designating the alum powders to remember that all powders sold at twenty-five cents or less per pound are of this dangerous class. Pure cream of tartar powders are usually sold at from forty-five to fifty cents a pound.
